Juan Rulfo Autobiografia Armada:

Juan Rulfo Juan Rulfo, Reina Roffé, 1992 A Companion to Juan Rulfo Steven Boldy, 2016 A comprehensive study of the Mexican writer considered one of the finest novelists and short story writers in 20th century Latin America *Mexican Literature in Theory* Ignacio M. Sánchez Prado, 2018-01-25 Mexican Literature in Theory is the first book in any language to engage post independence Mexican literature from the perspective of current debates in literary and cultural theory It brings together scholars whose work is defined both by their innovations in the study of Mexican literature and by the theoretical sophistication of their scholarship Mexican Literature in Theory provides the reader with two contributions First it is one of the most complete accounts of Mexican literature available covering both canonical texts as well as the most important works in contemporary production Second each one of the essays is in itself an important contribution to the elucidation of specific texts Scholars and students in fields such as Latin American studies comparative literature and literary theory will find in this book compelling readings of literature from a theoretical perspective methodological suggestions as to how to use current theory in the study of literature and important debates and revisions of major theoretical works through the lens of Mexican literary works *Juan Rulfo* Fernando Barrientos del Monte, 2020-10-08 Parafraseando al historiador romano Cayo Salustio un hombre universal es aquel que alcanza la gloria no con las fuerzas corporales sino con las facultades del espíritu En las artes como en las ciencias un clásico es un intérprete auténtico y nico de su tiempo su obra es siempre actual en cualquier época incluso cada generación siente la necesidad de releerla y reinterpretarla releída En literatura un clásico es además un modelo de narrativa de escritura y de pensamiento No hay duda que Juan Rulfo es un hombre universal y su obra literaria es un clásico Rulfo no fue un escritor prolífico si por ello se entiende aquel literato que publica una o más obras en una o ensayos entrevistas cuentos etcétera Fue más bien un artesano de las letras No fue heredero de una familia intelectual apenas tuvo la oportunidad de zambullirse en una pequeña pero afable biblioteca Cuando publicó por primera vez lo hizo en revistas de tiraje limitado y casi fuera del alcance de la crítica literaria de la época Empero sus primeros cuentos vendrán con el tiempo a trastornar el devenir de la literatura en México y dar a conocer a un escritor al mundo entero Estructura y significación de Pedro Paramo Beatriz González Stephan, 1990 **Los caminos de la creación en Juan Rulfo** Sergio López Mena, 1993 **Tradition and Modernity in Spanish American Literature** A. Sharman, 2006-10-16 Please note this is a Palgrave to Order title PTO Stock of this book requires shipment from an overseas supplier It will be delivered to you within 12 weeks Modernity in Spanish America has been viewed by a postmodern cultural studies as a condition of the first half of the twentieth century whose major political philosophical and cultural assumptions the region would do well to leave behind This book explores a corpus of Spanish American literary texts from that modern period which dramatize the constitutive dynamics of modernity in particular the legacy of the French Revolution the logic of nationalism the founding of the modern city and the awkward relationship to both Western and indigenous traditions Its argument is that one cannot so

easily take leave of modernity Interface between Literature and Science Victoria Carpenter, 2015-05-13 The boundaries of science and literature are permeable they are continuously crossed and illuminated by a variety of narrative forms and their interpretations Changes in our perception of the world are informed in equal measure by scientific and humanistic disciplines This volume treats both literary and scientific texts as products of the human mind therefore abiding by all the rules it creates scientific and humanistic alike The volume does not propose to replace all literary or discourse analysis with a cross disciplinary science based approach but rather uses this theoretical stance when more conventional means fail to explain or even explore the intricacies of a text It argues that scientific discourse can also be analysed through the prism of literary theories since all texts are governed in varying measure by the unity of contexts that characterize their nature the process of their creation and their place in the cognitive realm of humanity This approach will allow the nature and limitations of scientific research to be questioned while opening up more venues to explore scientific creativity that crosses the subject boundaries of science and humanities Latin American literature offers many examples of the interconnection between literary and scientific discourse Notwithstanding the often explored relationship between Jorge Luis Borges s literary themes and contemporary scientific discoveries a more general question should be asked is the influence of scientific thought a privilege of the select few or is it indeed an all pervading experience in Latin American literary narrative from late modernism to present day This book explores the texts that overtly incorporate scientific content or are structured in such a way that immediately reminds the reader of a scientific phenomenon it will also examine the texts that are presented in such a way that a conventional literary analysis does not help penetrate the many narrative layers that the text comprises The volume offers cross disciplinary readings of such authors as Jorge Luis Borges Gabriel Garc a M rquez Ernesto S bato and Gustavo Sainz to name but a few **The Routledge Handbook to the Culture and Media of the Americas** Wilfried

Raussert, Giselle Liza Anatol, Sebastian Thies, Sarah Corona Berkin, 2020-03-02 Exploring the culture and media of the Americas this handbook places particular emphasis on collective and intertwined experiences and focuses on the transnational or hemispheric dimensions of cultural flows and geocultural imaginaries that shape the literature arts media and other cultural expressions in the Americas The Routledge Handbook to the Culture and Media of the Americas charts the pervasive asymmetrical flows of cultural products and capital and their importance in the development of the Americas The volume offers a comprehensive understanding of how inter American communication is constituted framed and structured and covers the artistic and political dimensions that have shaped literature art and popular culture in the region Forty six chapters cover a range of inter American key concepts and dynamics divided into two parts Literature and Music deals with inter American entanglements of artistic expressions in the Western Hemisphere including music dance literary genres and developments Media and Visual Cultures explores the inter American dimension of media production in the hemisphere including cinema and television photography and art journalism radio digital culture and issues such as freedom of

expression and intellectual property This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology political science and cultural postcolonial gender literary globalization and media studies

Jewish Writers of Latin America Darrell B. Lockhart, 2013-08-21 Jewish writing has only recently begun to be recognized as a major cultural phenomenon in Latin American literature Nevertheless the majority of students and even Latin American literary specialists remain uninformed about this significant body of writing This Dictionary is the first comprehensive bibliographical and critical source book on Latin American Jewish literature It represents the research efforts of 50 scholars from the United States Latin America and Israel who are dedicated to the advancement of Latin American Jewish studies An introduction by the editor is followed by entries on 118 authors that provide both biographical information and a critical summary of works Argentina Brazil and Mexico home to the largest Jewish communities in Latin America are the countries with the greatest representation but there are essays on writers from Venezuela Chile Uruguay Peru Colombia Costa Rica and Cuba
