Trapped in Mediocrity Katherine Baird, 2012-08-09 Our students aren't learning we're falling behind other countries and many of our college graduates are even functionally illiterate We offer our kids a weak and poorly thought out curriculum too many teachers do not make good use of classroom time and follow lesson plans that are superficial and repetitive almost all state governments define proficiency at low levels of competency and because kids with very uneven skills populate a classroom teachers spend considerable time on review before introducing new material This dismal picture is tempered by the fact that the hard work and dedication of countless teachers and administrators means that many students get an excellent education But it doesn't temper it much As a group even our top students are not as strong as are those in a large majority of other rich countries But it doesn't have to be this way Katherine Baird an economist starts by clearly spelling out how our educational system is trapped in mediocrity Yet she doesn't just expose where we are She identifies the steps to get out of the trap We need to 1 dramatically reform our education's governance structure 2 establish high expectations for all students 3 provide adequate support to meet those expectations and 4 introduce strong incentives for students to work hard in school so they do their part in meeting higher standards Clearly it isn't as simple as it sounds but Baird carefully examines each factor that has led to the current state in education and then spells out how a combination of policies will weaken the forces that keep our schools mediocre and instead make them ones worth copying

Institutionalisation of Political Parties Robert Harmel, Lars G Svåsand, 2019-01-30 This edited collection builds directly upon the recently published book by Harmel Sv sand and Mjelde Institutionalisation and De Institutionalisation of Right Wing Protest Parties The Progress Parties in Denmark and Norway and applies their conceptual framework to a wide range of additional cases Employing a common conceptual framework throughout the

chapters cover a broad range of cases and make important contributions toward building theories on why some parties succeed in institutionalising while others fail The book is primarily about the status some parties achieve as an institution the means by which parties may acquire that status and some of the obstacles that stand in their way *Education at a Glance 2012 OECD Indicators* OECD,2012-09-11 Education at a Glance OECD Indicators is the authoritative source for accurate and relevant information on the state of education around the world It provides data on the structure finances and performance of education systems in OECD member countries as well as in selected non member countries **The New Collective**

Bargaining Gary Chaison,2012-06-12 This book explains how collective bargaining has changed in important and lasting ways over the past decade We are now seeing a new and powerful strain of the concession bargaining that traces its roots back to the early 1980s The collective bargaining of the past decade can be characterized as ultra concession bargaining because it is an intense and self perpetuating deviation from earlier concession bargaining Employers now act and unions react rather than the other way around Employers no longer have to establish a credible case of financial hardship or commit to the traditional quid pro quo of saving jobs in return for lower labor costs or guarantee singularity that concession bargaining is a single even that will not have to be repeated Not all collective bargaining occurs as this extreme variant but it has become the prevailing form Essentially there has been a sea change in collective bargaining in America The book describes the transformation of collective bargaining in a lively and readable manner avoiding academic legalistic or technical jargon and it will appeal to persons interested in the future directions of collective bargaining and unionism in America e g the general public graduate and undergraduate students in human resource management and industrial relations courses and labor relations managers and union activists and staff The book deals with aspects of union revival as it asks whether ultra concession bargaining is cause or outcome of the unions declining influence in the American economy and society Above all by using published reports on bargaining and interviews and surveys of bargaining settlements the book shows where the concession bargaining is now and where it is heading *Puerto Rico Is in the Heart: Emigration, Labor, and Politics in the Life and Work of Frank Espada*

E. Carvalho,2013-04-12 Set against the backdrop of contemporary US economic history *Puerto Rico Is in the Heart* examines the emigration labor and political experiences of documentary photographer human rights activist and Puerto Rican community leader Frank Espada and considers the cultural impact of neoliberal programs directed at Puerto Rico and Puerto Ricans *Transformations in Egyptian Journalism* Naomi Sakr,2013-01-22 Egypt's revolutionary uprising in 2011 raised important questions about the kind of journalism that would be viable in the country's changing political dynamics Suddenly the output of bloggers online radio and social media news operations which had all formed part of the groundswell of action against dictatorship and repression posed an explicit challenge to journalists in state run and commercial media companies who were more directly subject to government controls As different interest groups struggle over the country's future Naomi Sakr considers emerging visions of journalism

in Egypt In this book she charts recent transformations in Egyptian journalism exploring diverse approaches to converged media and the place of participatory cross media networks in expanding and developing the country s body of professional journalists She analyses journalists initiatives for restructuring publicly owned media and securing a safe and open environment in which to work
