**Space and the Postmodern Fantastic in Contemporary Literature** Patricia Garcia, 2015-04-24 Arising from the philosophical conviction that our sense of space plays a direct role in our apprehension and construction of reality both factual and fictional this book investigates how conceptions of postmodern space have transformed the history of the impossible in literature Deeply influenced by the work of Jorge Luis Borges and Julio Cortázar there has been an unprecedented rise in the number of fantastic texts in which the impossible is bound to space space not as scene of action but as impossible element performing a fantastic transgression within the storyworld This book conceptualizes and contextualizes this postmodern fantastic use of space that disrupts the reader's comfortable notion of space as objective reality in favor of the concept of space as socially mediated constructed and conventional In an illustration of the transnational nature of this phenomenon García analyzes a varied corpus of the Fantastic in the past four decades from different cultures and languages merging literary analysis with classical questions of space related to the fields of philosophy urban studies and anthropology Texts include authors such as Julio Cortázar Argentina John Barth USA J G Ballard UK Jacques Sternberg Belgium Fernando Iwasaki Per Juan José Millás Spain and Ric Faye France This book contributes to Literary Theory and Comparative Literature in the areas of the Fantastic narratology and Geocriticism and informs the continuing interdisciplinary debate on how human beings make sense of space

Bergmann, Stacey Schlau, 2007

This volume addresses the religious sociocultural and political context of colonial society Sor Juana lived in a convent a community of women whose lives were strictly regulated by the rules of their order in her case the Hieronymites She was subject to the authority of the bishop and other clerics She lived in the capital of an enormously wealthy colonized region whose vast territory and many inaccessible rural areas created governance nightmares She participated in a highly stratified colonial society in which class race religion and gender determined performative behaviors to a great extent She was subject

to a power struggle between the secular and religious arms of government as well as internecine church conflicts Her ability to throw off some of the weight of restrictions and limitations on a woman of her temperament vocation and family background remains truly remarkable Emilie L Bergmann and Stacey Schlau Preface p xii Urania Camille Flammarion,1903 Agrindex ,1980 **Libros españoles en venta** ,1991 **Catalog of the Avery Memorial Architectural Library of Columbia University** Avery Library,1958 **Widener Library Shelflist: Latin America and Latin American periodicals** Harvard University.
