The Great Reversal Thomas Philippon, 2019-11-05 American markets once a model for the world are giving up on competition Thomas Philippon blames the unchecked efforts of corporate lobbyists Instead of earning profits by investing and innovating powerful firms use political pressure to secure their advantages The result is less efficient markets leading to higher prices and lower wages **William Orpen, an Outsider in France**

Caroline Gallois, 2019-01-15 William Orpen 1878 1931 was in 1917 appointed as an official war artist in France He not only saw the Great War as a call to paint serious subject matter enabling him to break away from the constraints of society portraiture in London but also as an opportunity to write Orpen was commissioned along with artists such as Paul Nash Stanley Spencer and Wyndham Lewis to paint for the Department of Information He was the only war artist to keep a written record of his wartime experience published in 1921 as *An Onlooker in France* In his Preface Orpen rather too modestly states This book must not be considered as a serious work on life in France behind the lines it is merely an attempt to record some certain little incidents that occurred in my own life there This art historical study is a companion to this attempt It examines within the context of the global crisis that WWI was and from various theoretical philosophical and literary angles his singular and at times provocative work Orpen set out to provide a textual and visual record of life on the Western Front as well as behind the lines of what was supposed to be the War to End all Wars For want of being a fighting man the non combatant artist writer determined to fight with his own arms his pens and brushes The Light of Paris Eleanor

Andrew Sangster, 2020-04-30 World War II produced many histories which differ according to when and by whom they were written Many historians tend to write in order to justify their home nation In the recent Brexit debate it was claimed many times that we won the war and we do not need Europe politicians were as guilty of this as everyone else Britain survived rather than won the war single handedly and managed only because of the Allies In France at the L'Hôtel National des Invalides in a museum dedicated to World War II the photographs and notes tended to imply that Germany was defeated by the French with some American assistance All countries have their bias and special points of view regarding their shared history of World War II always somewhat nationally self centred This book confronts these nationalistic populist views and in places challenges accepted versions of traditional national histories *The Evolution of Strategy* Beatrice

Heuser, 2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over the past two millennia **The Century** Alain Badiou, 2018-05-18 Everywhere the twentieth century has been judged and condemned the century of totalitarian terror of utopian and criminal ideologies of empty illusions of genocides of false avant gardes of democratic realism everywhere

replaced by abstraction It is not Badiou's wish to plead for an accused that is perfectly capable of defending itself without the author's aid Nor does he seek to proclaim like Frantz the hero of Sartre's Prisoners of Altona I have taken the century on my shoulders and I have said I will answer for it The Century simply aims to examine what this accursed century from within its own unfolding said that it was Badiou's proposal is to reopen the dossier on the century not from the angle of those wise and sated judges we too often claim to be but from the standpoint of the century itself Comparing Grief in French, British and Canadian Great War Fiction (1977-2014) Anna Branach-Kallas,Piotr Sadkowski,2018-09-24 Comparing Grief in French British and Canadian Great War Fiction 1977 2014 offers a comparative analysis of twenty three First World War novels Engaging with such themes as war trauma facial disfigurement women's war identities communal bonds as well as the concepts of mourning and post memory Anna Branach Kallas and Piotr Sadkowski identify the dominant trends in recent French British and Canadian fiction about the Great War Referring to historical sociological philosophical and literary sources they show how by both consolidating and contesting national myths fiction continues to construct the 1914 1918 conflict as a cultural trauma illuminating at the same time some of our most recent ethical concerns **The Black Book: What if Germany had won World War II - A Chilling Glimpse into the Nazi Plans for Great Britain** Mei Trow,2017-11-02 The terrible truth behind Nazi Germany's plans for Great Britain after WWII In July 1940 Walter Schellenberg of the German Secret Service drew up a list of 2 694 people believed to be living in Britain who were known enemies of the Reich In that month the Wehrmacht was poised across the Channel ready to hit Britain with blitzkrieg the terrible and hugely successful tactic that had already overwhelmed Poland Denmark Norway Holland Luxembourg Belgium and France The names on Schellenberg's list represent the heart and soul of a nation that made the British what they were but the list also includes a diaspora from Europe the intellectuals politicians and writers who had been driven out of their own homelands by the speed of the German conquests All human life is there lives that were to the Nazis unworthy of life Historians have found the list a curiosity Surely it cannot be real It was The Black Book is the first book to evaluate the list and look at the chilling reality of what Hitler had in store for the nation The Routledge Companion to Literature and Feminism Rachel Carroll,Fiona Tolan,2023-12-01 The Routledge Companion to Literature and Feminism brings unique literary critical and historical perspectives to the relationship between women's writing and women's rights in British contexts from the late eighteenth century to the present Thematically organised around five central concepts Rights Networks Bodies Production and Activism the Companion tracks vital questions and debates offering fresh perspectives on changing priorities and enduring continuities in relation to women's ongoing struggle for liberty and equality This groundbreaking collection brings into focus the historical and cultural conditions which have shaped the formation of British literary feminisms including the legacies of slavery colonialism and Empire From the political novel of the 1790s to early twentieth century suffrage theatre and contemporary ecofeminism and from the mid Victorian antislavery movement to anti fascist activism in the 1930s and working class women's writing groups

in the 1980s this book testifies to the diverse and dynamic character of the relationship between literature and feminism Featuring contributions from leading feminist scholars the Companion offers new insights into the crucial role played by women s literary production in the evolving history of women s rights discourses feminist activism and movements for gender equality It will appeal to students and scholars in the fields of women s writing British literature cultural history and gender and feminist studies

French Cinema and the Great War Marcelline Block, Barry Nevin, 2016-02-04 Even a century after its conclusion the devastation of the Great War still echoes in the work of artists who try to make sense of the political moral ideological and economic changes and challenges it spawned France the military major power of the Western Front carries the legacy of battles on its own soil and countless French lives lost defending the nation from the Central Powers It is no surprise that the impact of the First World War can still be seen in French films into the present day French Cinema and the Great War Remembrance and Representation provides the first book length study of World War I as it is featured in French cinema from the silent era to contemporary films Presented in three thematic sections Recording and Remembering the Great War Women at the Front and Interrogating Commemoration the essays in this volume explore the ways in which French film contributes to the restoration and modification of memories of the war Films such as *La Grande Illusion* *King of Hearts* *A Very Long Engagement* and *Joyeux Noel* are among those discussed in the volume s examination of the various ways in which film mediates personal and collective memories of this critical historical event This volume will be an invaluable resource not only to those interested in French Cinema or the cinema of the Great War but also to those interested in the impacts of war more generally on the cultural output of nations torn by the violence death and destruction of military conflict

Humor, Entertainment, and Popular Culture during World War I Clémentine Tholas-Disset, Karen A.

Ritzenhoff, 2015-05-06 Humor and entertainment were vital to the war effort during World War I While entertainment provided relief to soldiers in the trenches it also built up support for the war effort on the home front This book looks at transnational war culture by examining seemingly light hearted discourses on the Great War

Treating Weapons Proliferation D. Santoro, 2010-03-01 *Treating Weapons Proliferation* is a chilling exploration of the dynamics of weapons proliferation and nonproliferation In an analogy with the disease of cancer the book walks the reader through the history of the phenomenon with its growing complexities and changing dimensions
