Pierre DU MOULIN (the Elder.), 1658      **La Gestapo devant ses juges en Belgique** Céline Préaux, 2007 Etude sur la façon dont la Belgique a jugé les criminels de guerre allemands et leurs collaborateurs belges au lendemain de la Seconde Guerre mondiale      **Les lettres de S. Augustin** Aurelius Augustinus (Hipponensis), 1707      Les Lettres Aurelius Augustinus, 1737      The Political Economy of Independence in Europe Hana Lipovská, 2020-04-15 This book examines secessionism separatism and calls for independence in the European Union in recent history and within an economic context It contributes to the deeper understanding of factors influencing the individual decision making processes around secession using economic analysis to answer a set of simple questions about who the secessionists are what they really want what their incentives are and why it is easier to declare their secessionist tendencies than to vote for secession This a highly topical theme given the secessionist referenda in Catalonia Scotland Ukraine Kosovo and the United Kingdom and this book offers a unique contribution to the debate It is based on an exclusive survey carried out among members of the pro independence parties and movements across 17 European countries and 56 European regions It uses the instruments of the Political Economy of Conflict to reveal the importance of romantic and economic factors influencing the drive towards secession Secessions have been regarded as a purely romantic phenomenon that cannot be rationalised whereas this book connects the sensibility of romantic factors such as language religion or ethnicity with the sense of economic factors through its rational economic approach Furthermore it applies the standard methodology of microeconomic analysis to discover the impact of individual pro secessionist factors An integral part of the text presents a brief historic overview uncovering the lesser known path dependency The book will find an audience among researchers scholars and students of economics and political science as well as policy makers and professionals engaged with a secessionist agenda      *Guilty Pleas in International Criminal Law* Nancy Amoury Combs, 2007 International crimes such as genocide and crimes against humanity are complex and difficult to prove so their prosecutions are costly and time consuming As a consequence international tribunals and domestic bodies have recently made greater use of guilty pleas many of which have been secured through plea bargaining This book examines those guilty pleas and the methods used to obtain them presenting analyses of practices in Sierra Leone East Timor Cambodia Argentina Bosnia and Rwanda Although current plea bargaining practices may be theoretically unsupportable and can give rise to severe victim dissatisfaction the author argues that the practice is justified as a means of increasing the proportion of international offenders who can be prosecuted She then incorporates principles drawn from the domestic practice of restorative justice to construct a model guilty plea system to be used for international crimes      **Silk** ,1910      Paroles de soleil - tome II ,      **Les lettres de S.
