La Goutte Dor:

Michel Tournier's Metaphysical Fictions Susan Petit, 1991-01-01 This study of the fictional themes and techniques of Michel Tournier reveals his profound radicalism as a social critic and novelist despite the seeming conventionality of his works Guided by Tournier's essays and interviews Petit examines his fiction in light of plot sources philosophical and anthropological training and his belief that fiction should change the world Close study of *Vendredi ou les limbes du Pacifique* *Le Roi des aulnes* *Les Metéores* *Gaspard Melchior et Balthazar* and *La Goutte d'or* as well as the short fiction in *Le Coq de bruyère* and *Le Medianoche amoureux* shows Tournier's revolutionary conception of plot structuring as he develops key themes whether religion sensuality or prejudice in more than twenty years spent reconceiving the nature of fiction

Picturing the Maghreb Mary B. Vogl, 2003 *Picturing the Maghreb* critiques photographic and verbal representations with a focus on four of the most prominent French language writers of recent years Michel Tournier J M G Le Clézio Tahar Ben Jelloun and Leïla Sebbar Their activist writing reframes a picture of Maghreb produced by two centuries of Orientalist misrepresentation The book explores photography as a metaphor for other sorts of representation and examines the cultural impact of actual photographs *Michel Tournier and the Metaphor of Fiction* Jean-Pierre Boulé, David Platten, 1999-01-01 Michel Tournier is a writer who explores complex philosophical questions in the guise of concrete imagistic narratives This comprehensive study privileges the notion of literary reference by which the world of text is understood or experienced in metaphorical relation to the world outside of it Metaphor in the context of Tournier's fiction shows how the fantastic merges with the real to provide new perspectives on many diverse aspects of the modern world the Crusoe myth Nazism the value to society of art and religion and the nature of education This book elucidates an aesthetic of Tournier's fiction that encompasses the writer's stated ambition to go beyond literature *Postcolonial Representations* Françoise Lionnet, 1995 Discussing a variety of postcolonial narratives written by women Lionnet offers a comparative feminist approach that can provide common ground for debates on such issues as multiculturalism universalism and relativism **Only Muslim** Naomi Davidson, 2012-07-11 The French state has long had a troubled relationship with its diverse Muslim populations In *Only Muslim* Naomi Davidson traces this turbulence to the 1920s and 1930s when North Africans first immigrated to French cities in significant numbers Drawing on police reports architectural blueprints posters propaganda films and documentation from metropolitan and colonial officials as well as anticolonial nationalists she reveals the ways in which French politicians and social scientists created a distinctly French vision of Islam that would inform public policy and political attitudes toward Muslims for the rest of the century Islam from the French Muslims were cast into a permanent otherness that functioned in the same way as racial difference This notion that one was only and forever Muslim was attributed to all immigrants from North Africa though in time Muslim came to function as a synonym for Algerian despite the diversity of the North and West African population Davidson grounds her narrative in the history of the Mosque de Paris which was inaugurated in 1926 and

epitomized the concept of Islam fran ais Built in official gratitude to the tens of thousands of Muslim subjects of France who fought and were killed in World War I the site also provided the state with a means to regulate Muslim life throughout the metropole beginning during the interwar period Later chapters turn to the consequences of the state s essentialized view of Muslims in the Vichy years and during the Algerian War Davidson concludes with current debates over plans to build a Muslim cultural institute in the middle of a Parisian immigrant neighborhood showing how Islam remains today a marker of an unassimilable difference

Empire on the Seine Amit Prakash,2022-03-03 Why are relations between minorities and the police in France so fraught Stripping away the myth that this tension is a sudden and recent disruption of its universalist republican tradition brought on by the presence of North African immigrants Amit Prakash locates the origins of contemporary conflicts in race and empire in France s history In *Empire on the Seine* Prakash argues that the m tropole and the colony dynamically co developed a policing regime over the course of the nineteenth and twentieth centuries to manage colonial and racial difference With the North African community emerging as a sizable and durable presence in Paris after World War I this policing became a key state practice in imagining and administering the immigrant population Prakash shows that despite the French state s current reluctance to use race as an official category racial thought and racial targets animated police services social services and urban planning schemes from the 1920s until the 1970s Using police archival records reports from colonial officials urban planning and housing studies and the records of French social workers and immigrant associations Prakash shows that colonial racism was integrated into the policing of Paris and that architecture urbanism and social housing assumed police functions for colonial and postcolonial migrants In light of this history contemporary social and racial segregation periodic protests and rioting against police violence and the aggressive posture of the Parisian police emerge as the material traces of French colonialism in the m tropole The city of Paris was the capital of an empire and its imperial shadows are long , [The Routledge Handbook of the History of Paris since 1789](#) Kory Olson,Amanda Shoaf Vincent,Erin-Marie Legacey,2025-05-29 This handbook assembles a vibrant collection of original scholarship highlighting new and exciting research themes on Paris in the Modern Era It provides an innovative selection and use of primary sources broadens the notion of archive and includes diverse voices and multiple perspectives The contributors representing a range of academic disciplines in the humanities and social sciences connect specific topics to larger historical questions and extend consideration of Paris beyond the city s historical limit to the outskirts of the metropolis in the le de France region The first section includes overview chapters tracing structural evolutions and broad movements as understood through recent historiography The second section presents essays that take a narrower focus on case studies and key moments of reflection and debate change and commemoration through specific sites social phenomena cultural objects movements and representations of Paris in the arts The authors explore how Paris has been imagined constructed and mythologized from the outside by tourists immigrants and those separate from the circles of power as well
