La Grande Mutation:

The Return of Religion in France E. McCaffrey, 2009-05-07 The author examines how social change and philosophical crisis in the 1980s created the conditions for the return of religion to contemporary French intellectual life It highlights a critical conjuncture in recent French history when religion was revitalized in French secularism as an expression of individual identity , *The Astrological Works of Jean Thenaud* Nicolae Alexandru Virastau, 2025-05-01 This critical edition highlights the astrological writings of Jean Thenaud a sixteenth century astrologer at the French court who served Louise of Savoy and her son King Francis I Thenaud s works provide a rare glimpse into the intense fascination with astrology at the Renaissance court particularly during the crisis of 1524 when planetary conjunctions led to widespread fears of floods and natural disasters By creatively incorporating Lucian of Samosata s dialogues Thenaud also crafted one of the earliest cosmic journeys in early modern European literature This book enriches our understanding of how astrology prophecy politics and literature interacted in shaping early modern European thought *Competence and Program-based Approach in Training* Catherine Loisy, Jean-Claude Coulet, 2018-12-18 The controversies that have developed in recent years in the field of education and training around program and competency based approaches are not without reminiscent of those which are at the origin of a reflection on the question of methods to monitor control organize and shape innovation in science and technology and led to the emergence of the notion of responsibility for innovation and research Pell Reber 2015 This book is clearly part of this type of approach Starting from a current state of play on the issues and controversies raised by curricular and competency based approaches Chapters 1 and 2 this book aims at presenting new theoretical frameworks allowing to account for the processes implied by the implementation of these pedagogical innovations and in particular those which at the very heart of the skills mobilized promote a responsibility dimension Based on a developmental approach to individual and collective competencies and their evaluation Chapters 3 4 and 5 it attempts to show how this approach can mobilize educational practices on strong societal issues such as sustainable development Chapter 5 Lastly it aims to provide theoretical and practical benchmarks to help engage educational teams and institutions in these innovative and responsible approaches by providing a coherent framework for doing so Chapters 6 7 and 8 *Geography Unbound* Anne Godlewska, 1999-01-15 List of Figures Acknowledgments Introduction Part One Geography s Crisis One The Nature of Eighteenth Century Geography Cartographic and Textual Description Two Geography s Loss of Direction and Status Part Two Reaction and Continuity Three Universal Description Four The Powerful Mapping Metaphor Five Handmaiden to Power Part Three Innovation on the Margins Six Explaining the Social Realm Seven Innovation in Natural Geography Eight Tough Minded Historical Geography Conclusion Notes References Index Godlewska Geography Unbound contents 1 Copyright Libri GmbH All rights reserved **The Kiosk of Taharqa** Martina Minas-Nerpel, Rene Preys, 2023-09-26 From the reign of Ptolemy IV Philopator 221 204 BC an extensive building and decoration programme is attested throughout Egypt with a specific

emphasis on the cult of Osiris and the child gods The royal legitimization in which Horus of Edfu and Amun of Thebes played a major role was a further focal point With the Theban revolt 206 186 BC the royal support of the Egyptian temples stopped abruptly and was only resumed under Ptolemy VI Philometor In the temple of Amun Ra at Karnak the Kiosk of Taharqa was a key contribution of the Kushite period 746 655 BC Under Ptolemy IV a major restoration campaign took place in the First Courtyard the gate of the Second Pylon was rebuilt and the Kiosk substantially renovated Its intercolumnar walls were remodelled and carved with ritual scenes of royal legitimization The soubassement was decorated with a procession of nomes received by the goddess Waset and the column shafts and abaci were engraved with the royal names In this book the Kiosk's Ptolemaic texts and iconographic decoration are presented and analysed A global study of Philopator's architectural activities places the Kiosk in the larger context of Karnak and beyond In addition a palaeographic study of the hieroglyphic texts is published

Behind the Front Craig Gibson, 2014-03-27 Until now scholars have looked for the source of the indomitable Tommy morale on the Western Front in innate British bloody mindedness and irony not to mention material concerns such as leave food rum brothels regimental pride and male bonding However re examining previously used sources alongside never before consulted archives Craig Gibson shifts the focus away from battle and the trenches to times behind the front where the British intermingled with a vast population of allied civilians whom Lord Kitchener had instructed the troops to avoid Besides providing a comprehensive examination of soldiers encounters with local French and Belgian inhabitants which were not only unavoidable but also challenging symbiotic and uplifting in equal measure Gibson contends that such relationships were crucial to how the war was fought on the Western Front and ultimately to British victory in 1918 What emerges is a novel interpretation of the British and Dominion soldier at war

Correspondance
Diplomatique de Talleyrand Charles Maurice de Talleyrand-Périgord (prince de Bénévent), 1891

The White War Mark Thompson, 2009-03-17 In May 1915 Italy declared war on the Habsburg Empire Nearly 750 000 Italian troops were killed in savage hopeless fighting on the stony hills north of Trieste and in the snows of the Dolomites To maintain discipline General Luigi Cadorna restored the Roman practice of decimation executing random members of units that retreated or rebelled With

elegance and pathos historian Mark Thompson relates the saga of the Italian front the nationalist frenzy and political intrigues that preceded the conflict and the towering personalities of the statesmen generals and writers drawn into the heart of the chaos A work of epic scale The White War does full justice to the brutal and heart wrenching war that inspired Hemingway's A Farewell to Arms

Maritime Power and the Power of Money in Louis XIV's France Benjamin Darnell, 2023 A detailed analysis of the limitations of the system which relied on intermediaries and private suppliers to finance build and maintain the French navy Although Louis XIV's navy did not win in any recognisable sense during the wars of the later seventeenth and early eighteenth centuries it was nevertheless one of the largest military institutions of the entire early modern world at a key moment in the evolution of the modern state and modern warfare This book examines how Louis XIV's navy was financed arguing that the way the state spends money and the relative efficiency and accountability of that spending is fundamental to understanding the effectiveness of a military system It outlines how the French crown depended on fiscal intermediaries and private suppliers explores how its failure to control the spending and activities of its contractors fundamentally limited France's strategic possibilities at sea and discusses how these structural problems were progressively and disastrously exposed as the state's financial situation deteriorated The book sets the activities of the French navy in the wider context of the wars of the period showing that France necessarily had to give precedence to the funding of its army Overall the book highlights the limitations of the contractor state demonstrating that early modern navies were both too complex and investment heavy to be entirely outsourced

Real Time David F. Bell, 2010-10-01 In Real Time David F Bell explores the decisive impact the accelerated movement of people and information had on the fictions of four giants of French realism Balzac Stendhal Dumas and Zola Nineteenth century technological advances radically altered the infrastructure of France changing the ways ordinary citizens and literary characters viewed time space distance and speed The most influential of these advances included the improvement of the stagecoach the growth of road and canal networks leading to the advent of the railway and the increasing use of mail and of the optical telegraph Citing examples from a wide range of novels and stories Bell demonstrates the numerous ways in which these trends of acceleration became not just literary devices and themes but also structuring principles of the novels themselves Beginning with both the provincial and the Parisian communications networks of Balzac Bell proceeds to discuss the roles of horses and optical telegraphs in Stendhal and the importance of domination of communication channels to the characters of Dumas whose Count of Monte Cristo might be seen as the ultimate fictional master of this accelerated culture Finally Bell analyzes the cinematic vision created by the arrival of the railroad as depicted by Zola in La B te Humaine
