

LANDSCAPING SAFETY

According to OSHA, landscapers are exposed to all kinds of different hazards on a daily basis, ranging from heat and weather hazards, chemical exposures, accidents with machinery or tools, construction dangers, and the physical stress of lifting and other awkward postures.

LANDSCAPING HAZARDS

Landscapers are in danger of facing several hazards in the industry. These hazards include cuts and amputations, electrical hazards, ergonomics, heat and cold stress, lifting and awkward postures, motor vehicles, noise, pesticides and chemicals, and slips, trips, and falls.

SOIL PREPARATION & GRADING

The common hazards that occur during soil prep and grading include equipment accidents, slips and trips, vehicle accidents, cuts and amputations, and hearing loss. Combat these hazards by training and certifying operators and drivers. Make sure workers wear ear protection and boots with traction soles, and stay clear of tiller blades.

IRRIGATION & HARDSCAPE CONSTRUCTION

During irrigation, make sure workers wear protective gloves, stay clear of trencher blades, and that the equipment is inspected. During hardscape construction, ensure that equipment safeguards are functional and in place, utilize protective systems, and provide the proper PPE, including ear protection, and saw training.

PLANTING & TREE CARE

For planting, train and certify drivers and make sure that equipment is inspected before use. Landscapers must keep the jobsite clean, drink plenty of water and take rest breaks, and get help for lifting. Tree care workers must wear safety goggles, hard hats, chaps, and ear protection, and comply with the 10-foot power line clearance rule.

LAWN & LANDSCAPE MAINTENANCE

Train drivers to avoid accidents and implement an effective hazard communication program that includes employee training. Workers should wear gloves, protective goggles while using blowers, ear protection while using power equipment, maintain comfortable mower settings, and use safe-lifting techniques.

Landscapes of Inequity Nicholas A. Robins,Barbara J. Fraser,2020-07-01 The natural wealth of the Amazon and Andes has long attracted fortune seekers from explorers farmers and gold panners to multimillion dollar mining oil and gas and timber operations Modern demands for commodities have given rise to new development schemes including hydroelectric dams open cast mines and industrial agricultural operations The history of human habitation in this region is intimately tied to its rich biodiversity and the Amazon basin is home to scores of indigenous groups many of whom have populations so small that their cultural and physical survival is endangered Landscapes of Inequity explores the

debate over rights to and use of resources and addresses fundamental questions that inform the debate in the western Amazon basin from the Andes Mountains to the tropical lowlands Beginning with an examination of the divergent conceptual interpretations of environmental justice the volume explores the issue from two interlocking perspectives of indigenous peoples and of economic development in a global economy The volume concludes by examining the efficacy of laws and policies concerning the environment in the region the viability and range of judicial recourse and future directions in the field of environmental justice
