Learn how to let technology cultivate student autonomy, creativity, and responsibility while focusing on lessons that hone higher-order and critical thinking skills. See technology as a complement rather than a replacement. Embrace its creation potential over consumption. Encourage personalized learning, autonomy, and creativity over outcomes. Celebrate digital competence over curriculum improvement. Focus on tech pedagogy over product usage.

**Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching** Hodges, Tracey S., 2022-05-27 Writing is a critical component for teaching children about advocacy and empowering student voice as well as an essential tool for learning in many disciplines. Yet writing instruction in schools often focuses on traditional methods such as the composition of five-paragraph essays or the adherence to proper grammatical conventions. While these are two components of writing instruction,

and preparation in education they only provide a small glimpse into the depth and breadth of writing. As such, writing instruction is increasingly complex and requires multiple perspectives and levels of skill among teachers. The Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching serves as a comprehensive reference of issues related to writing instruction and leading research about perspectives, methods, and approaches for equitable and effective writing instruction. It includes practices beyond K-12, including best writing practices at the college level as well as the development of future teachers. Providing unique coverage on culturally relevant writing, socio and racial linguistic justice, and urgent writing pedagogies, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education, pre-service teachers, teacher educators, libraries, government officials, researchers, and academicians.

**The Routledge Handbook of English Language Teaching** Graham Hall, 2016-05-12. The Routledge Handbook of English Language Teaching is the definitive reference volume for postgraduate and advanced undergraduate students of Applied Linguistics, ELT, TESOL, and Language Teacher Education, and for ELT professionals engaged in in-service teacher development and/or undertaking academic study. Progressing from broader contextual issues to a narrower focus on classrooms and classroom discourse, the volume's inter-related themes focus on ELT in the world, contexts and goals, planning and organising ELT curriculum, resources and settings, methods and methodology, perspectives and practices, second language learning and learners, teaching language knowledge, skills and pedagogy, understanding the language classroom. The Handbook's 39 chapters are written by leading figures in ELT from around the world. Mindful of the diverse pedagogical, institutional, and social contexts for ELT, they convincingly present the key issues, areas of debate and dispute, and likely future developments in ELT from an applied linguistics perspective. Throughout the volume, readers are encouraged to develop their own thinking and practice in contextually appropriate ways, assisted by discussion questions and suggestions for further reading that accompany every chapter. Advisory board: Guy Cook, Diane Larsen-Freeman, Amy Tsui, and Steve Walsh.
