Conway,2007-12-03 This fully revised and updated third edition of the highly acclaimed *Memory in the Real World* includes recent research in all areas of everyday memory Distinguished researchers have contributed new and updated material in their own areas of expertise The controversy about

the value of naturalistic research as opposed to traditional laboratory methods is outlined and the two approaches are seen to have converged and become complementary rather than antagonistic. The editors bring together studies on many different topics such as memory for plans and actions for names and faces for routes and maps, life experiences and flashbulb memory and eyewitness memory. Emphasis is also given to the role of memory in consciousness and metacognition. New topics covered in this edition include life span development of memory, collaborative remembering, déjà vu and memory dysfunction in the real world. Memory in the Real World will be of continuing appeal to students and researchers in the area. **U.S.**
