The Use of Pop Songs in the EFL Classroom Ornerová Lenka, 2011-03-09 Inhaltsangabe Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part I answer the research questions and provide some implications for my own teaching Inhaltsverzeichnis Table of Contents ABBREVIATIONS AND DEFINITIONS ABSTRACT INTRODUCTION9 THEORETICAL PART 1 MOTIVATION10 1 1Definition of motivation10 1 2Different kinds of motivation11 1 3Motivation in second language acquisition learning vs foreign language learning12 1 4Sources of motivation in the EFL classroom14 2 MULTIPLE INTELLIGENCES16 2 1The categories of intelligence17 2 2The implications of MI theory for ELT19 2 3Musical *Translation and Own-Language Use in Language Teaching* Eva Skopečková, 2024-04-06 This book reconsiders the role of translation and own language use in the EFL English as a Foreign Language classroom It shows prospective teachers how to use the learners own language and translation optimally The author surveys current research about the EFL classroom and presents both a theoretical framework and a didactic model for using translation and learners mother tongues This is done through an action research project assessing the proposed didactic model for optimal translation practice in English Language teaching OTP in ELT through its integration into teacher education The book will be of interest to students and researchers in the areas of Translation Studies and Applied Linguistics particularly EFL ESL TEFL and TESOL as well as educators and designers of pre service training programmes for language teachers **Solutions** Tim Falla, Paul A.
