Theaters of Translation Andrew S. Keener, 2025 In *Theaters of Translation* Cosmopolitan Vernaculars in Shakespeare's England Andrew S. Keener argues that plays by Thomas Kyd, Mary Sidney Herbert, Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries, grammars and language learning dialogues. Bringing together critical discussions and methodologies in transnational literary studies, book history and the history of theater and performance, Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos. Rather than accepting Shakespeare as England's national playwright and instead of inscribing the period's theater and drama within England's political, geographic and linguistic limits, *Theaters of Translation* demonstrates the intercourse between England's drama and the great variety of multilingual dictionaries, dialogues, grammars and language manuals circulating throughout Europe. Covering the period 1570-1640, when England's drama and crucially the English language itself was a proving ground for linguistic mixture, Keener emphasizes the term cosmopolitan vernaculars, which refers to non-classical languages that modeled transnational forms of belonging for playgoers, readers and authors across early modern Europe. In doing so, he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion. The critical genealogy of the term cosmopolitan vernaculars is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire, so by acknowledging the complexities associated with the terms cosmopolitanism and vernacularity, Keener offers a conceptual and historical bridge between the medieval period and the imperial era, making room for linguistic considerations of cosmopolitanism in England among French, Italian, Spanish and other European languages in relation to the English theater. Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture, particularly studies examining the dynamics of multiple languages, translation and polyglot manuals and dictionaries in Europe, *Theaters of Translation* highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage. With this evidence, Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays. *Theaters of Translation* also seeks to make much more out of details known to scholars already, such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino's scandalous Italian dialogues or that Shakespeare's First Folio was advertised for sale in Germany before its London publication, but which have been overlooked or obscured because they do not always agree with the prevailing nationally focused approaches to early modern drama in England.

Selected Essays Walter Pater, 2018-09-27 Famed for his singular prose style as much as for his controversial aestheticist principles, Walter Pater (1839-1894) was one of the great essayists in a century of great essayistic writing. His first book, *Studies in the History of the Renaissance*, one of the most original and

influential texts of the Victorian Aesthetic Movement was described by Arthur Symonds as the most beautiful book of prose in our literature and his later work moved Vernon Lee to call him the natural exponent of the highest aesthetic doctrine

Selected Essays is a generous gathering of Pater's essays on literature art history philosophy and mythology all of them in the words of Oscar Wilde delicately wrought works of art The selection is accompanied by Alex Wong's critical and biographical introduction and rich explanatory notes
