Ember Of A New World:

New World's Gear Seb D Law,2020-09-22 Atlas is no ordinary planetary system For decades it has been kept free of villainy by a pantheon of deities Heroic individuals who changed life for the better are literally immortalised through the power of the mysterious metal known as divinite They are gifted with powers and undying bodies sustained by the faith of mortals These deities thought themselves invincible And they were until twelve years ago when the Stygir first appeared This cryptic warrior race waged the most devastating war Atlas had seen And the solution now threatens to breed conflict between the system s four races Bob Solis is an ordinary human boy in this chaotic epoch Having spent his entire life in a shelter he wants to be seen as something other than a liability When a program opens to recruit new possible deities he seizes this chance to be one who protects instead of one who is protected He has no idea that during his training a series of events will lead to him embark on the most dangerous venture of his life In this new world of conflict tension and scheming a boy must become a warrior or watch his system suffer a fate worse than anything he could imagine **Spirit of Mages** AJ

The Flaming Unicorn of the Ashen Volcano AQEEL

AHMED,2024-04-07 The Flaming Unicorn of the Ashen Volcano A fiery unicorn that lives in the arid landscapes of a dormant volcano goes outside to stop an impending explosion from destroying its home and finds fire inside it Summary In the middle of a magical kingdom full of magic and mystery is a desert land shaped by a volcano that is no longer active This harsh seemingly empty land is home to Ember a fiery unicorn whose mane and tail glow with the flames of the volcano that holds it Ember is as unique as the land it s on When strange signs show that the volcano is about to explode threatening to destroy the empty plains and everyone who lives there in a huge explosion Ember s peaceful life is turned upside down Ember is thrown into an experience it could never have imagined when it thinks it might lose its home On this journey you will learn grow and stay alive As Ember leaves the comforts of the pale fields he finds a world full of magic danger and animals from mythology Ember makes friends with a lot of strange people but Luna a phoenix whose life cycle of rebirth matches Ember s own is the most important one The friendship and unity they build with each other is their biggest strength During this trip Ember faces difficulties evaluating its bravery and strength As it leads Ember through the dangerous Whispering Woods and solves the Ice Sphinx s riddles Ember s adventure shows how powerful it really is These tests not only teach Ember how to be strong physically but also how to be brave selfless and have an unbreakable spirit When Ember and Luna set the difficult goal of calming the raging volcano they learn that strength alone isn t enough to get things done Friendship and Page 9 of 40 being ready to make sacrifices for the good of others are also especially important From the edge of disaster to the start of a new era Ember s story turns into a legend that inspires everyone in the world This story shows how important it is to work together be brave and always be positive This description takes place in a fictional world where the impossible becomes possible and Ember a fiery unicorn becomes the hero of not only her own story but also the story of an entire planet It tells a story of change adventure and the unbreakable bond between friends Page 10 of 40 Chapter 1 Charred Lands and Flame A huge empty plain lay in a mysterious area far away hidden by tall mountains and thick woods A big dormant volcano lay beneath the top of this plain making it one of a kind Ember the horse that was on fire lived here in the gray and black volcanic ash that covered the whole area Ember wasn t like other unicorns It was stunning to see with its beautiful hair on fire and moving like it was dancing in the wind Its feet sparkled like diamonds as it ran across the ground leaving a light trail behind them The volcano had been dormant for thousands of years but now it was Ember s home and a peaceful place to relax There was a golden glow around Ember every morning when he woke up as the sun was rising Ember s fiery mane would catch the first rays of sunlight making a beautiful show of brightness that stood out against the dark surroundings Then Ember would start its day by racing over the well worn paths it knew paths that wound around rocky outcroppings that looked like the spines of a huge sleeping animal and around large fields of ash Because of the warmth coming from deep in the ground life grew even though the area looked empty There were patches of bright red grass all over the fields making for

an interesting and beautiful scene This grass which was as red as Ember s flames was eaten by it It happily grazed loving the warm ground under its hooves The constant warmth of this place was a gentle reminder of how strong that person really was Ember had a calm life She spent her days thinking about herself and quietly looking into things Ember liked finding new places in the large ash fields and she would sometimes go near the edge where the ash gave way to the solid hard rock of the volcano s shell From these spots Ember could see the land around her the woods that surrounded the white fields and the mountains that rose high into the sky The volcano was a scary silent monster Its rumblings were a memory and its explosions were a dream Ember had heard stories about how the volcano exploded and sent ash and flames into the sky The stories were whispered through the ash by the wind But that was a long time ago In the harsh land around it the volcano was a safe place to stay warm and a steady presence Ember s life was simple but full of happiness There was a wide open sky above warm ground to rest on bright red grass to eat and nothing else It seemed like its days had a natural flow like the beat of its heart Ember didn t know it but her peaceful life was about to change When Ember s new story was about to start the volcano that had been keeping her safe in silence moved Ashen regions were not the only places Ember would be going to on this exciting trip It would take it into new areas and to a future it could never have imagined As the days went by Ember noticed a small change in the mood that made her think of something that was about to happen The ground under its feet which had been warm before became hotter all of a sudden and the air was filled with excitement Ember felt something stirring inside her like a spark of joy that meant something new was about to start but she had no idea what it was So with its bright main light shining against the gray background Ember kept traveling the empty fields not knowing

Warlike and Peaceful Societies Agner Fog,2017-10-13 Are humans violent or peaceful by nature We are both In this ambitious and wide ranging book Agner Fog presents a ground breaking new argument that explains the existence of differently organised societies using evolutionary theory It combines natural sciences and social sciences in a way that is rarely seen According to a concept called regality theory people show a preference for authoritarianism and strong leadership in times of war or collective danger but desire egalitarian political systems in times of peace and safety These individual impulses shape the way societies develop and organise themselves and in this book Agner argues that there is an evolutionary mechanism behind this flexible psychology Incorporating a wide range of ideas including evolutionary theory game theory and ecological theory Agner analyses the conditions that make us either strident or docile He tests this theory on data from contemporary and ancient societies and provides a detailed explanation of the applications of regality theory to issues of war and peace the rise and fall of empires the mass media economic instability ecological crisis and much more

The Great Maya Droughts in Cultural Context Gyles Iannone,2014-03-15 In The Great Maya Droughts in Cultural Context contributors reject the popularized link between societal collapse and drought in Maya civilization arguing that a series of periodic collapses including the infamous Terminal Classic collapse AD 750 1050 were not caused solely by climate change related droughts but by a combination of other social political and environmental factors New and senior scholars of archaeology and environmental science explore the timing

and intensity of droughts and provide a nuanced understanding of socio ecological dynamics with specific reference to what makes communities resilient or vulnerable when faced with environmental change Contributors recognize the existence of four droughts that correlate with periods of demographic and political decline and identify a variety of concurrent political and social issues They argue that these primary underlying factors were exacerbated by drought conditions and ultimately led to societal transitions that were by no means uniform across various sites and subregions They also deconstruct the concept of collapse itself although the line of Maya kings ended with the Terminal Classic collapse the Maya people and their civilization survived The Great Maya Droughts in Cultural Context offers new insights into the complicated series of events that impacted the decline of Maya civilization This significant contribution to our increasingly comprehensive understanding of ancient Maya culture will be of interest to students and scholars of archaeology anthropology geography and environmental studies
