AT & T's cash management activities over the three-year period of 2006 - 2008 appear to be extremely strong. The company is generating significant amounts of cash flow from operating activities, with 2007 and 2008 at roughly twice the level of 2006. AT & T is then able to reinvest substantial amounts in its asset base. At the same time AT & T is also able to fund its financing activities from its operating cash flow. The large amount of funds being used in investing activities indicates that AT & T is growing its capital-intensive business.
