informed by a constructive awareness of the tensions between a purist approach to exile as forceful violent banishment from one's native land as a result of intolerance and that of exile as a metaphor for all kinds of alienation societal estrangements and psychic dislocations. Most of the essays in this volume bear the imprint of an experiential scholarly lyrical mode of composition and are further informed by the contributors' acute awareness of the imbricated nature of their parents' exilic experiences and their own creative and scholarly endeavors. By acknowledging the burdensome traumatic travails of their ancestors, the contributors find pleasure and privilege in their filial and professional responsibility to bear witness to the resiliency of the human spirit transcending exile, which Joseph Conrad called an unnatural state of existence. In so doing, they testify to their efforts to metamorphose their inherited sense of exile into acts of commemoration, education, and creativity.
