Introduction

Loved by the pilots who flew it and feared by those who flew against it, the Fokker DVII is regarded by many as the greatest fighter of WWI. E-flite brings this Great War legend to life with this remarkable foam slow flyer that comes out of the box loaded with scale details. Details like molded machine guns, accurately modeled interplane struts, a dummy Mercedes engine and an intricately detailed cooling grille, just to name a few. Even the vibrant trim scheme that comes pre-printed on the foam is an authentic reproduction of the markings on the DVII flown by German ace, Ernst Udet.

When matched with E-flite's Park 250 brushless outrunner motor, the Fokker DVII 250's featherlight wing loading and stunning scale appearance make for a majestic slow flyer experience unlike any other.

Important Information Regarding Warranty Information

Please read our Warranty and Liability Limitations section on Page 24 before building this product. If you or the Purchaser or user are not prepared to accept the liability associated with the use of this Product, you are advised to return this Product immediately in new and unused condition to the place of purchase.

Using the Manual

This manual is divided into sections to help make assembly easier to understand, and to provide breaks between each major section. In addition, check boxes have been placed next to each step to keep track of its completion. Steps with a single circle (O) are performed once, while steps with two circles (O O) indicate that the step will require repeating, such as for a right or left wing panel, two servos, etc.

Remember to take your time and follow the directions.
