Friendship in Medieval Iberia Antonella Liuzzo Scorpo, 2016-04-15 Private and public relationships frequently labelled as friendships have always played a crucial role in human societies Yet over the centuries ideas and meanings of friendship transformed adapting to the political and social climates of different periods Changing concepts and practices of friendship characterized the intellectual social political and cultural panorama of medieval Europe including that of thirteenth century Iberia Subject of conquests and Reconquest land of convivencia but also of political instability as well as of secular and religious international power struggles the articulation of friendship within its borders is a particularly fraught subject to study Drawing on some of the encyclopaedic vernacular masterpieces produced in the scriptorium of The Wise King Alfonso X of Castile 1252-84 this study explores the political religious and social networks inter faith and gender relationships legal definitions as well as bonds of tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstrates how the values and meanings of amicitia often associated with classical Roman Visigothic and Eastern traditions were transformed to adapt to Alfonso X's cultural

Thomas Muntzer was a rebel who grows in historical stature. Spiritualist as he was he was devoted to the Scriptures and a liturgiologist worthy of comparison with Cranmer between whose principles and his own there is a large measure of agreement. Dr Rupp called him one of the most fascinating and tragic of God's delinquent children. Vadianus lived in St Gall and as Burgomaster guided the Reforming movement into peaceful ways. He was a born student and historian whose life has been preserved by the thumbnail sketches of the inspired gossip and friend Kessler
