## **Geography Memo For Grade September 2014:**

**Andreas Friz's Letter on Tragedies (ca. 1741-1744)** Nienke Tjoelker, 2014-11-06 In Andreas Friz's Letter on tragedies ca 1741 1744 Nienke Tjoelker offers insight into the Jesuit school theatre of the eighteenth century Commonly ignored by scholars who assume that by then Jesuit theatre was disappearing and of poor quality it appears to be very much alive and interacting with contemporary vernacular theatre Tjoelker places Friz's poetics in its historical and literary context in an extensive introduction and presents an edition with translation She investigates Friz's focus on the imitation of French classical writers such as Jean Racine 1639 1699 and Pierre Corneille 1606 1684 Friz criticised his colleagues for their excessive use of multimedia ornaments which hindered the correct application of the three classical unities and verisimilitude

**Mobility and Migration Choices** Martin van der Velde, Ton van Naerssen, 2016-03-03 The crossing of national state borders is one of the most discussed issues of contemporary times and it poses many challenges for individual and collective identities This concerns both short distance mobility as well as long distance migration Choosing to move or not across international borders is a complex decision involving both cognitive and emotional processes This book tests the approach that three crucial thresholds need to be crossed before mobility occurs the individual's mindset about migrating the choice of destination and perception of crossing borders to that location and the specific routes and spatial trajectories available to get there Thus both borders and trajectories can act as thresholds to spatial moves The threshold approach with its focus on processes affecting whether when and where to move aims to understand the decision making process in all its dimensions in the hope that this will lead to a better understanding of the ways migrants conceive perceive and undertake their transnational journeys This book examines the three constitutive parts discerned in the cross border mobility decision making process people borders and trajectories and their interrelationships Illustrated by a global range of case studies it demonstrates that the relation between the three is not fixed but flexible and that decision making contains aspects of belonging instability security and volatility affecting their mobility or immobility

**The Business of Education** Joel Spring, John Eric Frankson, Corie A. McCallum, Diane Price Banks, 2017-07-06 The Business of Education a comprehensive view of how education policy is made in the US and in some cases globally analyzes and critiques the influence of educational policy networks in a wide range of contexts and from a variety of perspectives including testing college preparation juvenile detention centers special education the arts teacher evaluation systems education of undocumented immigrants college faculty preparation and financial aid A network chart in most chapters illustrates how the major political actors mainly private philanthropic foundations for profit companies government officials and politicians involved in the network are linked Joel Spring internationally renowned scholar and analyst of educational policy situates and frames the network studies in an introduction discussing general theories of education policy networks

**On Unemployment** Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

**Beyond the Shelley Circle** Sharon L. Joffe, 2025-07-25 Beyond the Shelley Circle The Clairmont Family and Its Descendants will interest Shelley circle researchers life writing scholars and nineteenth century historians alike The Clairmont family s connection to Mary Shelley began in 1801 when her father William Godwin married Mary Jane Vial The combined family then included the future author of Frankenstein plus her half sister Fanny who had been left motherless by the death of Mary Wollstonecraft and Vial s two children Charles and Claire Clairmont a fifth child William Godwin Junior was born in 1803 In 1816 Mary would marry Percy Shelley thereby creating the extended Wollstonecraft Godwin Shelley Clairmont kinship circle Despite the often difficult relationship between Vial and her stepdaughters the children in the blended family were close into adulthood Beyond the Shelley Circle traces this history and that of the Clairmont family into the twenty first century through various personal writings It includes in German transcription and English translation with editorial notes the previously unpublished journal of Ottilia Clairmont the wife of Charles s son which describes her life in the Banat region in the 1860s It uses this

document and others for a fulsome discussion of life writing in the period among women and in literary circles The book further connects the kinship coterie to other family studies situating them in a vital tradition within literary studies

**The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

*Higher Education and the Creative Economy* Roberta Comunian, Abigail Gilmore, 2016-03-10 Since the DCMS Creative Industries Mapping Document highlighted the key role played by creative activities in the UK economy and society the creative industries agenda has expanded across Europe and internationally They have the support of local authorities regional development agencies research councils arts and cultural agencies and other sector organisations Within this framework higher education institutions have also engaged in the creative agenda but have struggled to define their role in this growing sphere of activities *Higher Education and the Creative Economy* critically engages with the complex interconnections between higher education geography cultural policy and the creative economy This book is organised into four sections which articulate the range of dynamics that can emerge between higher education and the creative economy partnership and collaboration across Higher Education institutions and the creative and cultural industries the development of creative human capital connections between arts schools and local art scenes and links with broader policy directions and work Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3.0 license

**Sold Out** Michelle Malkin, John Miano, 2015-11-10 The 1 New York Times bestselling author and firebrand

syndicated columnist Michelle Malkin sets her sights on the corrupt businessmen politicians and lobbyists flooding our borders and selling out America's best and brightest workers In *Sold Out* Michelle Malkin and John Miano name names and expose the lies of those who pretend to champion the middle class while aiding and abetting massive layoffs of highly skilled American workers in favor of cheap foreign labor Malkin and Miano will explode some of the most commonly told myths spread in the media like these Lie 1 America is suffering from an apocalyptic shortage of science technology engineering and math workers Lie 2 US companies cannot function without an unlimited injection of the highly skilled and highly educated foreign workers who offer capital and energy that American workers can't match Lie 3 America's best and brightest talents are protected because employers are required to demonstrate that they've made every effort to hire American citizens before resorting to foreign labor For too long open borders tech billionaires and their political enablers have escaped tough public scrutiny of their means and motives It's time to trade the whitewash for solvent American workers deserve better and the public deserves the unvarnished truth

Critical Pedagogy in Hong Kong Carlos Soto, 2019-09-06 This book chronicles the author's application of critical pedagogy in Hong Kong secondary schools serving students from working class families of South Asian heritage so called ethnic minorities in the local context Soto used concepts such as banking pedagogy generative themes liberatory dialogue and transformative resistance to first understand students' school online and community experiences and then to reshape his teaching of English and humanities subjects to address the students' academic social and emotional needs This critical ethnography is set against educational reforms in Hong Kong which re-orientated schools towards developing a knowledge economy workforce increased privatization and competition in the school system aimed to build national identification with China and sought to address growing inequality in a territory known for wealth disparity While these reforms opened opportunities for implementing student-centered pedagogies in schools and increased student access to tertiary education ethnic minority youth faced ongoing economic and social marginalization on top of academic difficulties The central narrative captures everyday struggles and contradictions arising from intersections of neoliberal reforms institutional school histories students' transnational realities and collective efforts for equity and social justice In the course of the book a parallel story unfolds as the author explores what it means to be a critical teacher and researcher and is reborn in the process The book's on-the-ground story is hopeful yet tempered in discussing the limits and possibilities for critical pedagogy It will be of a great resource for researchers teacher educators and pre-service and in-service teachers who are interested in the topic

*The Chinese City* Weiping Wu, Piper Gaubatz, 2020-11-29 Drawing on years of research experience and keen observations of the triumphs and problems in China's cities the authors provide a foundational understanding of China's urbanization and cities that is grounded in history and geography and challenges readers to consider Chinese urbanization through multiple disciplinary and thematic lenses This book is anchored in the spatial sciences including geography urban studies urban planning and environmental studies It offers a comprehensive survey of the evolving urban landscape covering such topics as history and patterns of urbanization spatial and regional context models of urban form economic and social spatial transformation urbanism and cultural dynamics housing and land development environmental and infrastructure issues poverty and inequality and challenges of urban governance The book highlights both parallels and substantive differences between China and comparable cities and countries elsewhere given that some urban conditions around the world converge and point to shared catalysts e.g. internal migration and globally linked processes e.g. climate change It explores the consequences of the demographic economic social and environmental transitions on cities and urban dwellers Illustrated case studies in each chapter ground the discussion and introduce readers to the diversity of cities and urban life in China Most chapters also can be used as stand alone course materials with suggested references for further reading Intended for a wide audience in higher education and beyond this book will be useful to readers interested in Chinese Studies East Asian Studies Urban Studies Urban Geography or Urban Planning

**How To Think About Cities** Deborah G. Martin, Joseph Pierce, 2022-11-29 Cities are raucous cacophonous and complex Many dimensions of life play out and conflict across cities intricate landscapes be they political cultural economic or social Urban policy makers and analysts often attempt to cut through the noise of urban disagreement by emphasizing a dominant lens for understanding the key central logic of the city How To Think About Cities sees this tendency to selective vision as misleading and ultimately unjust cities are many things at once to different people and communities This book describes the various ways of seeing the functions and landscapes of the city as place frames and the constant process of negotiating which place frames best explain the city as place making Martin and Pierce call for an explicitly hybrid perspective that shifts between many different frames for making sense of cities This approach highlights how any given stance opens up some lines of inquiry and understanding while closing off others Thinking of cities as sites of contested perspectives promotes a synthetic approach to urban analysis that emphasizes difference and political possibility This mosaic view of the city will be a welcome read for those within urban studies geography and social
