**Exclusion and Inclusion in International Migration: Power, Resistance and Identity** Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this

**HC 369 - Devolution: The Next Five Years and Beyond** Great Britain. Parliament. House of Commons. Communities and Local Government Committee,2016

The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry set out to examine the contents of the Bill and in particular whether Greater Manchester s deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public s response is likely to be more emotional The Committee also believes that the Government s approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution It suggests various ways in which proper process can be ensured

Natural Gas Michael J. Bradshaw,Tim Boersma,2020-04-23

Is natural gas the bridge to our low carbon future In power generation industrial processes parts of the transportation sector and for domestic use natural gas still has the potential to play a greater role in various energy transition pathways around the world But such a future is by no means certain In this book Michael Bradshaw and Tim Boersma offer a sober and balanced assessment of the place of natural gas in the global energy mix today and the uncertainties that cloud our understanding of what that role may look like in the future They argue that natural gas has become prominent in recent decades spurred by two revolutions the first has been the rise of unconventional natural gas production and the second the coming of age of the market for liquefied natural gas LNG However a third

revolution is required to secure natural gas long term role in various energy transition pathways as countries are increasingly pushing to address air quality concerns and curtail greenhouse gas emissions This revolution has to take place as politicians citizens investors and shareholders are becoming increasingly vocal about the need to improve the environmental footprint of the fuel while simultaneously and perhaps paradoxically demand for it continues to grow in a world where geopolitical challenges seem to be mounting The U.S.-China Military Scorecard Eric Heginbotham, Michael Nixon, Forrest E. Morgan, 2015-09-14 A RAND study analyzed trends in the development of Chinese and U S military capabilities in two scenarios centered on Taiwan and the Spratly Islands and multiple types of operations from 1996 to 2017

Burt, A.S. Goudie, H.A. Viles, 2022-10-20 Co published with British Society for Geomorphology This volume is the fifth in the definitive series The History of the Study of Landforms or the Development of Geomorphology Volume 1 1964 dealt with contributions to the field up to 1890 Volume 2 1973 with the concepts and contributions of William Morris Davis and Volume 3 1991 covered historical and regional themes during the classic period of geomorphology 1890 1950 Volume 4 2008 concentrated on studies of geomorphological processes and Quaternary geomorphology between 1890 and 1965 by the end of this period process based studies had become dominant Volume 5 builds on this platform covering in detail the revolutionary changes in approach that characterized the study of geomorphology in the second half of the twentieth century It is divided into three sections the first deals with changes in approach and method the second with changes in ideas and the broader scientific context within which geomorphology is studied and the final section details advances in research on processes and landforms The volume s objective is to describe and analyse many of the developments that provide a foundation for the rich and varied subject matter of twenty first century geomorphology The Suicidal State in Somalia Mohamed Haji Ingiriis, 2016-04-01 This book

is a critical reposition of the study of military regimes in Africa Documenting and delving deep into the reign and rule of General Mohamed Siad Barre regime in Somalia from 1969 up to 1991 the book puts emphasis on African agencies ostensibly shaped by external beneficiaries and patrons over what went wrong with Africa after the much awaited post colonial period It does so by critically engaging with the wider theoretical and conceptual frameworks in African Studies which more often than not tend to attribute the post colonial African State raptures to colonialism The main thesis of the book is that colonialism left Africa on its own space wherein African leaders could have made a difference By putting discrete perspectives into historical context the book circumnavigates through comparative and comprehensive holistic approach to the Siad Barre regime to reveal how colonialism did not produce less than what criminalisation of the State resulted in Somalia This empirical analysis is crucial to understanding the contemporary conundrum facing the Somali world today The argument is that the contemporary conflicts are not only attributable to but also because of the past plunders of the post colonial leaders trained by the departed colonial authorities Employing nuanced analytic concepts and categories the aim of the book is to refine the past to recapture the present and envision the future Framing new ways of analyzing military regimes in Africa begins with re assessment of how the Siad Barre regime was previously approached Marshalling extensive and extraordinary amount of sources the book unveils the intricacies and contradictions of the dictatorship and its impact on the Somali psyche The book locates the evolution of the regime within the wider context of the Cold War political contestation between the East and the West Unparalleled in depth and analysis this book is the first full length scholarly study of the Siad Barre regime systematically explaining the politics and process of the dictatorial rule The historicity of exploring Somali State trajectory entails employing a Braudelien longue dur e approach Thus three interrelated sets of contexts questions inform the study how Siad Barre himself came into power how he ruled and maintained his authoritarian reign over the Somalis and who had assisted him from inside and outside the Somali world

*The Middle and Upper Paleolithic Archeology of the Levant and Beyond* Yoshihiro Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern

Humans which took place between November 30 and December 6 2014 in Hokkaido Japan Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia

**Propaganda and Ideology in the Russian-Ukrainian War** Jon Roozenbeek, 2024-05-31 Russia's invasion of Ukraine is one of the most important conflicts of the twenty first century With the start of military hostilities in 2014 also came an onslaught of propaganda to both convince and confuse audiences worldwide about the war's historical and ideological underpinnings Based on extensive research drawing on tens of thousands of news articles and hundreds of pages of legal documents and internal correspondence this book offers the first comprehensive analysis of the role of propaganda ideology and identity in the Russian Ukrainian war It argues that despite Russia's efforts to set up a media machine at home and abroad with eight years of propaganda legitimising Russia's presence in eastern Ukraine Russia never managed to vocalise a convincing alternative to Ukrainian nationhood Instead Russian propaganda backfired Ukraine is now more united than ever before

Routledge Handbook of Disinformation and National Security Rubén Arcos, Irena Chiru, Cristina Ivan, 2023-11-17 This interdisciplinary Handbook provides an in depth analysis of the complex security phenomenon of disinformation and offers a toolkit to counter such tactics Disinformation used to propagate false inexact or out of context information is today a frequently used tool of political manipulation and information warfare both online and offline This Handbook evidences a historical thread of continuing practices and modus operandi in overt state propaganda and covert information operations Further it attempts to unveil current methods used by propaganda actors the inherent vulnerabilities they exploit in the fabric of democratic societies and last but not least to highlight current practices in countering disinformation and building resilient audiences The Handbook is divided into six thematic sections The first part provides a set of theoretical approaches to hostile influencing disinformation and covert information operations The second part looks at disinformation and propaganda in historical perspective offering case study analysis of disinformation and the third focuses on providing understanding of the contemporary challenges posed by disinformation and hostile influencing The fourth part examines information and communication practices used for countering disinformation and building resilience The fifth part analyses specific regional experiences in countering and deterring disinformation as

well as international policy responses from transnational institutions and security practitioners Finally the sixth part offers a practical toolkit for practitioners to counter disinformation and hostile influencing This handbook will be of much interest to students of national security propaganda studies media and communications studies intelligence studies and International Relations in general

**Sanctuary and Asylum** Linda Rabben, 2016-09-01 The practice of sanctuary giving refuge to the threatened vulnerable stranger may be universal among humans From primate populations to ancient religious traditions to the modern legal institution of asylum anthropologist Linda Rabben explores the long history of sanctuary and analyzes modern asylum policies in North America Europe and elsewhere contrasting them with the role that courageous individuals and organizations have played in offering refuge to survivors of torture persecution and discrimination Rabben gives close attention to the mid 2010s refugee crisis in Europe and to Central Americans seeking asylum in the United States This wide ranging timely and carefully documented account draws on Rabben's experiences as a human rights advocate as well as her training as an anthropologist Sanctuary and Asylum will help citizens professionals and policy makers take informed and compassionate action

**Children of Migrants in China** Kam Wing Chan, Yuan Ren, 2020-11-25 Children are precious in China especially as its population ages rapidly The unprecedented fast urbanization and massive internal migration have profoundly changed almost every aspect of society They have impacted the livelihood of children of migrants most Because of the hukou system and related policies China's internal migrants face major obstacles to assimilate into cities But more than that as this book shows these policies have also torn families apart on a scale unseen heretofore More than 100 million children grow up in unstable families and the great majority have suffered from prolonged separation from their parents in the migratory upheaval This book provides an updated analysis of this mega and painful process unfolding at various geographical scales The chapters revolve around the central notion of family togetherness or the lack thereof The book measures dissects and analyses the impacts of migration on children and recommends policies to address major problems from a variety of disciplinary perspectives employing different methodologies The problems faced by the children of migrants remain enormous and it is a looming huge crisis in the making If unaddressed those problems can damage a whole generation with serious consequences The chapters in this book were first published in Eurasian Geography and Economics

**The Politics of Immigration** Tom K. Wong, 2017 Immigration has been deeply woven into the fabric of American nation building since the founding of the Republic Indeed immigrants have played an integral role in American history but they are also intricately tied to America's present and will feature prominently in America's future Immigration can shape a nation Consequently immigration policy can maintain replenish and even reshape it Immigration policy debates are thus seldom just about who to let in and how many as a nation's immigration policies can define its identity This is what helps breathe fire into the politics of immigration Against this backdrop political parties promote their own narratives about what the immigration policies of a nation of immigrants should be while undermining the contrasting narratives of political

opponents Racial and ethnic groups mobilize for political inclusion as immigration increases their numbers but are often confronted by the counteractive mobilization of nativist groups Legislators calibrate their positions on immigration by weighing traditional electoral concerns against a new demographic normal that is reshaping the American electorate At stake are not just what our immigration policies will be but also what America can become What are the determinants of immigration policymaking in the United States The Politics of Immigration focuses the analytical lens on the electoral incentives that legislators in Congress have to support or oppose immigration policy reforms at the federal level In contrast to previous arguments Tom K Wong argues that contemporary immigration politics in the United States can be characterized by three underlying features the entrenchment of partisan divides among legislators on the issue of immigration the political implications of the demographic changes that are reshaping the American electorate and how these changes are creating new opportunities to define what it means to be an American in a period of unprecedented national origins racial and ethnic and cultural diversity
