Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya

Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by

the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government **Global Tensions**

in the Russian Orthodox Diaspora Robert Collins,2022-12-30 This book explores the tensions that have arisen in the diaspora as a result of large numbers of Russian migrants entering established overseas parishes following the collapse of the Soviet Union These tensions made more fervent by the increasing role of the Church as part of the expression of Russian identity and by the Church's entry into the global culture wars carry with them alternative views of a range of key issues cosmopolitanism versus reservation liberalism versus conservatism and ecumenism versus dogmatism The book focuses on particular disputes discusses the broader debates and examines the wider context of how the Russian Orthodox Church is evolving overall *Healthy, Resilient, and Sustainable Communities After Disasters* Institute of Medicine,Board on Health Sciences Policy,Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges *Healthy Resilient and Sustainable Communities After Disasters* identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in *Healthy Resilient and Sustainable Communities After Disasters* lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery *Healthy Resilient and Sustainable Communities After Disasters* calls for actions at multiple levels to facilitate recovery strategies that optimize

community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities **America's Moment:**

Creating Opportunity in the Connected Age Rework America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America s Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone [Handbook of Research on Unemployment and Labor Market Sustainability in the Era of Globalization](#) Füsün

Yenilmez,Esin K?l?ç,2016-12-28 The effective utilization of available resources is a pivotal factor for production levels in modern business environments However when resources are limited or in excess this effects organizational success as well as the labor market The Handbook of Research on Unemployment and Labor Market Sustainability in the Era of Globalization is a comprehensive reference source for the latest scholarly research on the socio economic dynamics of unemployment and the development of new policies to assist in regulating the global labor market Highlighting innovative approaches and relevant perspectives such as outsourcing trade openness and employment protection this publication is ideally designed for policy makers professionals practitioners graduate students and academics interested in emerging trends for labor market development **The Drone Memos** Jameel Jaffer,2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial

execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In The Drone Memos civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of The Nation

Ukraine Over the Edge Gordon M. Hahn, 2018-01-14 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass

Kosovo and Serbia Leandrit I. Mehmeti, Branislav Radeljic, 2017-06-17 Azan on the Moon is an in depth anthropological study of people s lives along the Pamir Highway in eastern Tajikistan Constructed in the 1930s in rugged high altitude terrain the road fundamentally altered the material and social fabric of this former Soviet outpost on the border with Afghanistan and China The highway initially brought sentiments of disconnection and hardship followed by Soviet modernization and development and ultimately a sense of distinction from bordering countries and urban centers that continues to this day Based on extensive fieldwork and through an analysis of construction mobility technology media development Islam and the state Till Mostowlansky shows how ideas of modernity are both challenged and reinforced in contemporary Tajikistan In the wake of China s rise in Central Asia people along the Pamir Highway strive to reconcile a modern future with a modern past Weaving together the road a population and a region Azan on the Moon presents a rich ethnography of global connections

The Empirical and Institutional Dimensions of Smart Specialisation Philip McCann, Frank van Oort, John Goddard, 2016-11-25 Smart specialisation is the new policy approach to the development of regional innovation systems across Europe and it involves fostering innovative and entrepreneurial initiatives which are well tailored to the local context The different technologies skills profiles business activities institutions and sectors which reflect a region s economic strengths and potential are to be fostered and encouraged to diversify in ways which also exploit the region s linkages with broader global value chains Yet the

ideas contained in the smart specialisation agenda have until now been primarily conceptual in nature The Empirical and Institutional Dimensions of Smart Specialisation draws together some of the leading regional economists and scientists in Europe to analyse how smart specialisation is working in practice This book investigates different dimensions of the agenda as it is developing across parts of Europe from both quantitative and qualitative perspectives The quantitative analysis examines the nature of the diversification processes undertaken by regions and the interplay between the chosen local regional development priorities and the wider global value chain impacts of these choices Meanwhile the qualitative analysis examines the institutional opportunities and challenges facing policy makers and the key elements most likely to provide the underpinnings of a workable set of policy settings The book is aimed both at academic researchers interested in the interface between economic geography and regional innovation systems as well as at policy makers making public policy decisions related to regional development at the local city regional or national levels Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution **Exclusion and Inclusion in International Migration: Power, Resistance and Identity** Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin

Dancing to the State
Meenaxi Barkataki-Ruscheweyh, 2018-02-15 Can small indigenous communities survive as distinct cultural entities in northeast India an area characterized by mind boggling ethnic linguistic and cultural diversity What are the choices that such minority groups have and how do they resist further marginalization Diversity in northeast India is often celebrated and performed There has been a spate of ethnic festivals in this region in the recent years but a question remains Are these activities of ethnic revival signs of increasing agency or proof of their continued marginalization Situated around the tiny

Tangsa community of Assam this narrative ethnography looks at ethnic marginality and the compulsions imposed on minority communities by the dominant community state policies and political borders The concerns of the Tangsa community through multiple case studies while also reflecting on questions arising from the fact that she belongs to the dominant Assamese In a novel anthropological endeavour the author portrays community Unlike a theoretical treatise the aim in this book is to empower the subjects of study by narrating their life stories and everyday concerns in simple language thereby addressing a wider audience
