has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by

the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation

Neoliberalism and neo-jihadism Imogen Richards, 2020-09-29 Few social and political phenomena have been debated as frequently or fervidly as neoliberalism and neo jihadism Yet while discourse on these phenomena has been wide ranging they are rarely examined in relation to one another Neoliberalism and Neo jihadism examines political economic characteristics of twentieth and early twenty first century neo jihadism Drawing on Bourdieusian and neo Marxist ideas it investigates how the neo jihadist organisations Al Qaeda and Islamic State engage with the late modern capitalist paradigm of neoliberalism in their anti capitalist propaganda and quasi capitalist financial practices An investigation of documents and discourses reveals interactions between neoliberalism and neo jihadism characterised by surface level contradiction and structural connections that are both dialectical and mutually reinforcing Neoliberalism here is argued to constitute an underlying status quo while neo jihadism as an evolving form of political organisation is perpetuated as part of this situation Representing differentiated unique and exclusive examples of the revolutionary phenomenon of neo jihadism Al Qaeda and Islamic State are demonstrated to be characteristic of the mutually constitutive nature of power and resistance Just as resistance movements throughout modern history come to resemble the forms of power they sought to overthrow so too have Al Qaeda and Islamic State reconstituted the dominant political economic paradigm of neoliberalism they mobilised in response to

Pedagogy Pedagogy Practice Sets 1 2 The Political Geography of Campaign Finance Andrew Dowdle, Scott

Limbocker, Patrick A. Stewart, Karen Sebold, Joshua L. Mitchell, 2015-10-07

The Political Geography of Campaign Finance examines the distribution of political campaign contributions in the 2004 2008 and 2012 preprimary election periods Using aggregated individual level data the authors determine if certain areas contribute more to presidential candidates in different stages of the campaign and if these patterns are independent of wealth and partisanship Unlike previous research this book examines individual counties over multiple election cycles
