spotlights Shanghai's system which is distinctive and superior. Shanghai offers a clear illustration of an educational system that continually invests in educating a diverse student population and by measures of international comparison tests is achieving outstanding results. Many factors contribute to the Shanghai system's ongoing success including the students' motivation toward strong performance, the parental support for education that is culturally ingrained throughout the country, the focus that teachers place on high expectations for students and the individual tutoring they provide. The author argues that these factors are only a partial explanation of Shanghai's success and then closely describes educational policies that support teachers' preparation, hiring, ongoing development and opportunities for awards and leadership. These policies are based on the assumption that teachers are key to the nation's future and must be appropriately supported in order to contribute to student performance and achievement, an assumption that is also explicitly stated within Chinese law. This volume offers specific descriptions of how these national policies are translated, adapted and enacted in Shanghai. *Mission IAS - Prelim/ Main Exam, Trends, How to prepare, Strategies, Tips & Detailed Syllabus 2nd Edition* Dr. Md.
