fostering smart development and its interactions with the macro micro and meso economic framework from both a theoretical and applied perspective Specific topics covered by the book include human capital formation and utilization centralized decentralized industrial policies innovation policies collective learning and the role of public utilities in sustaining smart development processes This book tackles some of the most important questions that must be faced when investigating how structural change and innovation processes are shaping local and global economic development It will be of interest to academics and researchers in the area of Development Economics Urban Studies and Public Management *Digital Peripheries* Lorena Melgaço, 2022-08-16 Despite an unprecedented presence of digital technologies in the everyday a clear urban non urban divide in accessing and effectively using the internet remains This divide is identifiable not only in the Global South perceived as peripheral but also in the Global North regarded as advanced and the motor of technological development Such a phenomenon suggests the emergence and endurance of socio technological peripheries places where socio spatial inequalities are reinforced by unjust access to the internet To understand how such peripherality is manifested and challenged in rural settings where the rural and the urban mingle and clash the first part of this book draws from dependency theory and the decolonial thinking to discuss the impacts of uneven production access and use of digital technology The second part draws on Actor Network Theory as a methodological frame to understand the recursive entwinement of the everyday and the use of the internet in three villages two in Brazil and one in the UK By bringing to the fore challenges that cross North South divides *Digital Peripheries* proposes an open theory of the connected rural as a framework that addresses and accommodates the specificities of these communities in the twenty first century *Oswaal CBSE Class 12th 20 Combined Sample Question Papers Humanities Stream (English Core, History, Geography, Political Science, Psychology, Sociology) and 10 Previous Years' Solved Papers Yearwise (2013-2023) (Set of 2 Books) For 2024 Board Exams* Oswaal Editorial Board, 2023-11-10 Description of the Product Comprehensive Coverage Covers all Major subjects Concise Crisp with Mind Maps Revision Notes Curriculum Alignment 4 5 sets of Sample Papers to stimulate exam pattern format 100% Updated with the Latest CBSE Board Paper 2023 Valuable Exam Insights with Out of Syllabus Questions highlighted 100% Exam readiness with Commonly Made Errors and Answering Tips Concept Clarity with Topper s and Board Marking Scheme Answers **Cross-Border Cooperation as Conflict Transformation** Maria-Adriana Deiana, Milena Komarova, Cathal McCall, 2022-02-27 Has European integration helped to build peace in Europe and its neighbourhood The book addresses this question through theoretically and empirically informed case studies that explore the successes of and the challenges to EU cross border cooperation as a tool for conflict transformation Conceptually the contributors link the question of transforming conflict to changing understandings of borders and bordering Empirically the contributions represent case studies of practices and discourses of EU sponsored cross border cooperation and challenges to it The case studies encompass the multiple geographical perspectives of the EU internal boundaries its sometimes disputed external

borders and borders involving third countries From a thematic point of view the collection focuses on the intersection of two levels at which bordering processes unfold and are enacted the level of governance devolution and international intervention and that of grass roots or civil society efforts including cultural cooperation and artistic production The collection thus offers a kaleidoscopic view of border politics and conflict that zooms in and out of the EU frontiers and their geopolitics of peacebuilding security and cooperation The chapters in this book were originally published as a special issue of the journal *Geopolitics*

The Divided City and the Grassroots Giulia Carabelli, 2018-03-14 Focusing on Mostar a city in Bosnia Herzegovina that became the epitome of ethnic divisions during the Yugoslav wars this cutting edge book considers processes of violent partitioning in cities Providing an in depth understanding of the social political and mundane

dynamics that keep cities polarized it examines the potential that moments of inter ethnic collaboration hold in re imaging these cities as other than divided Against the backdrop of normalised practices of ethnic partitioning the book studies both planned and unplanned moments of disruption it looks at how networks of solidarity come into existence regardless of identity politics as well as the role of organised grassroots groups that attempt to create more inclusive and it critically engages with urban spaces of resistance Challenging the representation of the city as merely a site of ethnic divisions the author also explores the complexities arising from living in a city that validates its citizens solely through ethnicity Elaborating on the relationships between space culture and social change this book is a key read for scholars students and urban practitioners studying ethnically divided cities worldwide
