Geography Paper 1 November 2013 Memorandum:

Coast Guards and Ocean Politics in the Arctic Andreas Østhagen, 2019-11-04 This book is about how coast guards are becoming states foremost tool to manage changes occurring in ocean politics generally and in the Arctic specifically It looks at states rights at sea changes occurring in the Arctic region how coast guards are handling issues arising and how international cooperation can deal with some of the related challenges Big Data Applications in Geography and Planning

Mark Birkin, Graham Clarke, Jonathan Corcoran, Robert Stimson, 2021-05-28 This unique book demonstrates the utility of big data approaches in human geography and planning Offering a carefully curated selection of case studies it reveals how researchers are accessing big data what this data looks like and how such data can offer new and important insights and knowledge **Muslim Fashion** Reina Lewis, 2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity **Tigray: The Panarchy of War** Mirjam Van Reisen, Munyaradzi Mawere, 2024-11-17 The Tigray War 2020 2022 left a deep and lasting impact not only on Tigray but also on the wider Horn of Africa In this second book in a three part series the authors examine the devastation wrought by the war on Tigray s cultural heritage and identity The deliberate destruction of ancient cultural sites and the assault on the Tigrayan people s identity have fueled a desire for greater autonomy among the people of Tigray to protect their future Through the lens of Panarchy this book explores how the war s effects extend far beyond Tigray reshaping the dynamics of the entire region Crucially it uncovers Eritrea s secret role in the conflict which was deliberately concealed by Ethiopia Eritrean forces were implicated not only in atrocities but also in the use of particularly cruel and inhumane sexual violence intended to break the spirit of the Tigrayan people and erase Tigray as an ethnic and cultural group This ethnographic research conducted in collaboration with universities inside and outside Ethiopia reveals the profound transformations caused by the war with consequences that will reverberate for years to come It sheds light on the war s long term impact and highlights the urgent need for international attention on the challenges faced by Tigray and the wider region *Unrecognized States and Secession in the 21st Century* Martin Riegl, Bohumil Doboš, 2017-05-27 This book presents novel theoretical and empirical findings on the issue of unrecognized

states and secession The first part of the book conceptualizes unrecognized states as entities with a national identity and which have achieved political independence yet are not internationally recognized as independent states It also addresses topics such as the role of superpowers in secessionist conflicts ontological security in post Soviet states and factors influencing the legitimacy of secession referenda In turn the book s second part presents selected case studies on various secessionist regions and territories including Kurdistan the Caucasus Kosovo and Bougainville

Globalization, International Spillovers and Sectoral Changes Charlie Karlsson, Andreas P. Cornett, Tina Wallin, 2018-02-23 As a consequence of globalization news ideas and knowledge are moving quickly across national borders and generating international spillovers So too however are economic and financial crises Combining a variety of methods concepts and interdisciplinary approaches this book provides an in depth examination of these structural changes and their impact Assessing the implications of globalization for businesses and sectors chapters focus on the interdependencies between different economic and political layers and explore topics such as human capital creativity innovation networks and collaboration

Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution

Confronting Crisis and Precariousness Stefan Schmalz, Brandon Sommer, 2019-07-24 The 2008 global financial crisis and the subsequent Eurozone crisis triggered dramatic changes in European labour relations Unemployment and precariousness increased considerably This was further exacerbated by austerity measures leading to declining minimum wages and layoffs in the public sector These structural changes varied considerably by country but collectively pose challenges to organized labour as they confront neoliberal restructuring Concurrently recent social struggles continue to develop with unemployed and precarious workers playing a major role as protest actors Focusing on the triangular relationship of precariousness trade unions and social movements this book draws on a range of exciting cases both comparative and country case studies in order to understand how the shadow of the crisis still haunts organized labour in Europe The chapters in this collection each offer a unique perspective on how the results of the crisis in Western Southern and Eastern Europe are leading to a variety of new social movements as a consequence of increased precariousness and also how trade unions are attempting to respond

Self-determinable Development of Small Islands Masahide Ishihara, Eiichi Hoshino, Yoko Fujita, 2016-06-14 This book aims to clarify the present situation of the relations between small island countries and territories on the one hand and the great powers mainland areas and mega islands on the other and explores how small island countries and territories preserve and build their identity under globalization This book is divided into five parts The first part presents papers on issues that are related to Okinawa the American military presence the formation of a global human network and the history of and language revitalization in

Okinawa The second part includes papers on security in East Asia and the Pacific Region the history of and present issues in international relations within the South and East China Sea areas The third part presents papers on economic issues and social developments on small islands The fourth part deals with ocean policies and marine resource management in the Pacific Region by the United States Australia and Japan Finally the fifth part presents papers on the revitalization of three indigenous languages All the chapters of the book are based on the achievements of the research project Towards New Island Studies The Ryukyus as an academic node between East Asia and Oceania conducted by the International Institute for Okinawan Studies at the University of the Ryukyus This 5 year project was funded by the Japanese Ministry of Education Culture Sports Science and Technology and aimed to contribute academically to the creation of sustainable and self determinable societies in small island regions This work will be extremely useful and informative for readers in small island countries and territories and for researchers who are interested in small island issues to understand the current situation and who wish to consider effectual and feasible solutions

Sticky Power Daniel Haberly, Dariusz Wójcik, 2022-05-02 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Although modern civilization revolves around money the nature of money is paradoxical It is nothing more than a representation of and medium for decentralized networks of social trust but its production is controlled by highly centralized networks of firms places and governments and there is never enough of it to go around Moreover given that the creation of money as credit is based on expectations money is at its heart an instrument for human agency to change the future However the financial systems that produce money are deeply rooted in the past and perpetuate themselves through history Sticky Power seeks to deepen our understanding of the paradox of money by introducing a novel conceptual lens Global Financial Networks to cast new light on the geography history politics and sociology of finance from the Middle Ages to the global financial crisis and beyond It shows that the power of finance is inherently sticky apparently new innovations such as offshore finance actually date back centuries and global financial networks more broadly have adapted to the rise and fall of empires and the development of new technologies while changing surprisingly little in their basic character or at most changing very slowly Haberly and Wójcik argue that a recognition of the mechanics of this durability calls for a new approach to reforming finance one less reactively focused on regulation and more proactively focused on building new institutional systems with a long term sticky power of their own

Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change International Studies Scott

Straus, Barry Driscoll, 2018-09-10 The challenge of teaching international studies is to help students think coherently about the multiple causes and effects of global problems In *International Studies Global Forces Interactions and Tensions* award winning scholars Scott Straus and Barry Driscoll give students a clear framework that pinpoints how key factors forces interactions and tensions contribute to world events with both global and local consequences The authors first show students how to look for common patterns in global issues by introducing four world shaping forces global markets shifting centers of power information and communications technologies and global governance They systematically trace how these forces prompt interactions among world actors and thus give rise to a set of tensions that spur key challenges The framework enables students to ask and answer for themselves Who is interacting Where did such interactions develop What policies or institutions govern them Why are they getting certain global and local reactions Students then apply the framework to the global problems that matter most to them human rights abuses economic inequality terrorism forced migration pandemics and global health responses climate change food security and more *International Studies* raises the bar for the Introduction to IS course moving beyond interdisciplinary and into the realm of critical analysis to increase student relevancy and motivation Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning Learn more at edge.sagepub.com **straus1e** Bundle and Save Your students only pay 5 for The CQ Press Career Guide for Global Politics Students when you bundle it with the print version of *International Studies Use Bundle* ISBN 978 1 5443 5204 6

Bounded Rationality and Economic Diplomacy Lauge N. Skovgaard Poulsen, 2015-08-21 This book examines how developing countries often sign up to highly potent rules underwriting economic globalisation without even realising it

Structural Transformation and Economic Development Banji Oyelaran-Oyeyinka, Kaushalesh Lal, 2016-09-13 This book examines long term structural changes and the broad impact on economic development in regional comparative perspectives The book analyzes data across Africa Asia and Latin America It looks at key variables of productivity growth industrialization poverty urbanization and employment This book is concerned with understanding structural change dynamics and how it affects job creation living standards and the efficiency of productive cities through manufacturing productivity growth that benefits majority of citizens With empirical evidence from a selected number of developing countries including China India Brazil Nigeria and South Africa the book attempts to present the considerable structural changes of these countries over the last few decades It highlights that growth without the expected job creation is one of the distinct features of growth in emerging and developing countries It suggests that countries may well record economic growth whether through within sector productivity increase or through structural change but this may not necessarily lead to employment an important concern for long term development

Antarctica David Day, 2013-05-03 Since the first sailing ships spied the Antarctic coastline in 1820 the frozen continent has captured the

world's imagination David Day's brilliant biography of Antarctica describes in fascinating detail every aspect of this vast land's history two centuries of exploration scientific investigation and contentious geopolitics Drawing from archives from around the world Day provides a sweeping large scale history of Antarctica Focusing on the dynamic personalities drawn to this unconquered land the book offers an engaging collective biography of explorers and scientists battling the elements in the most hostile place on earth We see intrepid sea captains picking their way past icebergs and pushing to the edge of the shifting pack ice sanguinary sealers and whalers drawn south to exploit the Penguin El Dorado famed nineteenth century explorers like Scott and Amundson in their highly publicized race to the South Pole and aviators like Clarence Ellsworth and Richard Byrd flying over great stretches of undiscovered land Yet Antarctica is also the story of nations seeking to incorporate the Antarctic into their national narratives and to claim its frozen wastes as their own As Day shows in a place as remote as Antarctica claiming land was not just about seeing a place for the first time or raising a flag over it it was about mapping and naming and more generally knowing its geographic and natural features And ultimately after a little known decision by FDR to colonize Antarctica claiming territory meant establishing full time bases on the White Continent The end of the Second World War would see one last scramble for polar territory but the onset of the International Geophysical Year in 1957 would launch a cooperative effort to establish scientific bases across the continent And with the Antarctic Treaty science was in the ascendant and cooperation rather than competition was the new watchword on the ice Tracing history from the first sighting of land up to the present day Antarctica is a fascinating exploration of this deeply alluring land and man's struggle to claim it

Separatism and the State Damien Kingsbury, 2021-02-28 This book proposes and tests a theory of separatism to determine if there are key commonalities as to why separatist movements rise and what fuels them In the post Cold War period separatism has been on the rise Today there are more than 100 active separatist movements with around 70 of them engaging in violence This book focuses on examples from Europe the Middle East Africa and Asia to highlight the commonalities found across the case studies It examines the idea of separatism to better understand what drives movements to break away from preexisting states demonstrates the factors which produce both violent separatism and the rise of armed non state actors and shows the options for the resolution of such conflict based on considering claims for separatism from the perspectives of separatist movements This book will be applicable for undergraduate and postgraduate students of International Relations and International Politics as well as Conflict Peace Studies Anthropology and Post Colonial Studies
