Geography Grade 1ptshwane West:

A Century of Geography at Stellenbosch University 1920-2020 Gustav Visser, Jan de Waal, 2020-09-28 A Century of Geography at Stellenbosch University 1920 2020 focuses on the establishment and development of geography as an academic discipline at Stellenbosch South Africa s founding geography department The ways in which the department currently operates are deemed fundamentally joined to its past and pave the way for the evolution of geography and its various subdisciplines going forward The investigation seeks to highlight the development of the discipline and its institutionalisation as part of the academic offerings of the university while providing details about the teaching and research conducted as well as of the people who contributed to these endeavours It also furnishes the academic geography community at Stellenbosch and geography more broadly with some insights into its past development and more recent changes along with a complete bibliography of conducted research Urban Geography in South Africa Ruth Massey, Ashley Gunter, 2019-08-17 This book embraces South Africa and its place in the Global South providing a succinct theoretical and empirical analysis and discussion of urban issues in the country There have been sporadic calls from the Urban Geography community for the development of an overarching and comprehensive text that explores contemporary processes and practices taking place in urban South Africa and more widely the Global South This is an edited collection of chapters by leading urban theorists and practitioners working on various themes within urban South Africa and serves as a base for scholars and students interested in urban perspectives from countries in the Global South **Drum**, 2009-04 **Atlas A-Z**, 2012-02-20 Carry the world in your pocket with this fully updated fifth edition of Atlas A Z an invaluable global guide combining maps facts and statistics **Measures and Determinants of Urban Food Security: Evidence from Accra, Ghana** Tuholske, Cascade, Andam, Kwaw S., Blekking, Jordan, Evans, Tom, Caylor, Kelly, 2018-11-22 The urban population in Africa south of the Sahara SSA is expected to expand rapidly from 376 million people in 2015 to more than 1 25 billion people by 2050 Measuring and ensuring food security among urban households will become an increasingly pertinent task for development researchers and practitioners In this paper we characterize food security among a sample of low and middle income residents of Accra Ghana using 2017 survey data We find that households tend to purchase food from traditional markets local stalls and kiosks and street hawkers and rarely from modern supermarkets We characterize food security using three established metrics the Household Food Insecurity Access Scale HFIAS the Household Food Insecurity Access Prevalence HFIAP and the Food Consumption Score FCS We then estimate the determinants of food security using general linear models The food security metrics are not strongly correlated For example according to HFIAP as many as 70 percent of households sampled are food insecure but only 2 percent fall below acceptable thresholds measured by FCS Model results show that household education assets and dwelling characteristics are significantly associated with food security according to HFIAS and HFIAP but not with FCS The poor correlation and weak model agreement between the dietary recall metric

FCS and the experience based metrics HFIAS and HFIAP call for closer attention to measurement of urban food security Given Africa s urban future our findings highlight the need for an urban oriented comprehensive approach to the food security of urban households **The Routledge Companion to Interdisciplinary Studies in Singing, Volume II:**
