

Quite a discussed topic today, global warming is one of the major discussed issues amongst us. It is changing the world. Over the past few decades global warming has become a serious threat to our planet. It has been damaging the planet since the Industrial Revolution because of all fossil fuels being used for machines, automobiles and factories.

What we can do to help the environment is, 1. Reuse, renew and recycle. This means that we should try to save everything we use like papers, cans, water bottles and old books by putting them in recycling bins which are all around Canada. Use of toxic materials such as plastic and others which are hard to recycle are one of the reasons for global warming. We need educate our fellow people on the importance of recycling and reducing the usage of plastic. Certain plastics have also been introduced which can be recycled. The toxic plastics take about 10 to 15 years to decompose. Some people do not stop to think about items that can be recycled or reused. For example both sides of a sheet of paper can be used for taking notes and instead of using plastic bags use cloth bags. We should do recycling as it reuses the stuff used.

Another issue is the impact of fossil fuels on our environment. These fuels emit harmful gases and cause pollution. In order to reduce pollution, the vehicles which consume and admit petroleum products should have regular vehicle oil check. Another way of saving environment is by using less non-renewable materials like coal, oil and gas and replacing them with renewable materials makes solar powers, windmills and water mills. For example using a solar powered car instead of one with gas. And walking to near place instead of using a car. The use of fossil fuels is also very effective as it reduces the use of harmful fuels such as petroleum and diesel as they harm atmosphere around us.

Other activities cause the global warming. The harmful gases, raised from air conditioners and refrigerators harms the ozone layer which protects the earth so we should reduce the use of air conditioners and refrigerators. Furthermore, the impact of cutting trees is also a threat to our planet as it leads to global warming so we should start planting more trees to save our environment.

Also is there the impact of consumerism. The impact of consumerism is an issue for global warming. Increasing for production is the result of consumerisms. The more we buy products such as paper, the more we need in industries. And so on, they increase their activity of cutting trees. When people shop, they tend to throw out most of the things they come back with. For example when we buy six bottles of water, we throw out the bottles when we finish with that. You can also save the environment by buying environmentally friendly products and reusing plastic bags are buying paper bags instead.

We should start buying eco-friendly goods. As we start the others will also start this. Thus coming to a conclusion that when buying items or throwing away items we should think of ways to recycle and reuse. Remember, we have only one planet, so take care of it because it's our next generation that's going to suffer. We all know global warming has become the main threat to our planet we should reduce it. If we don't start to take care of the environment we won't have a planet anymore.

Grade Essay About Biomes

McGraw-Hill

Grade Essay About Biomes:

Overcoming Obesity in Childhood and Adolescence Donald Schumacher, MD, J. Allen Queen, 2006-11-01 This authoritative guide discusses the do's, don'ts, and can'ts that school leaders must consider when creating and implementing new school policies for wellness, nutrition, fitness, and health.

Writer's Choice Grammar and Composition Grade 9, Student Edition McGraw-Hill Education, 1995-06-23 The best grammar and composition program for high school students is Glencoe's Writer's Choice. Flexible composition segments can be used in any order to suit your classroom needs. The program is organized with integrated content, real-world applications, extensive opportunities for practice, and unsurpassed resources.

Curriculum Practice in the Elementary and Middle School J. Allen Queen, 1999 This first edition book offers very current treatment of curriculum issues, instructional planning, and new curriculum standards. The book integrates elements of the major historical, philosophical, and social influences upon past curriculum development. It compares traditional and futurist philosophies and describes the developmental aspects of children and their changing needs and interests within a framework of instructional expectations at specific grade levels. It also teaches the skills of curriculum development and instructional design. While a balanced coverage of viewpoints has been attempted, the book is intended to open new avenues by including educational futurism in a curricular model. It contains key chapter concepts, focus questions, a futurist curriculum model, actual units of instruction, and exercises for the reader to try. For educators at the elementary and middle school levels.

Writer's Choice: Grammar and Composition, Grade 10, Student Edition McGraw-Hill, 2000-03-31 With its combination of composition segments, grammar lessons, literature models, and hands-on practice exercises, Writer's Choice initiates, expands, and executes what it takes to make your students willing, proficient writers. Features include: An innovative and challenging TIME Facing the Blank Page section filled with nonfiction writing opportunities. A variety of assessment options both in print and online with the depth, breadth, and resources for the right assessment at the right time for the right student. A confidence-building Business and Technical Writing unit to prepare your students for real-world experiences. Strategic ways to improve retention and build skills with hundreds of exercises for grammar usage and mechanics. Streamlined composition lessons that provide flexibility for you and your students.

Research Anthology on Fandoms, Online Social Communities, and Pop Culture Management Association, Information Resources, 2022-01-28 The internet has grown to become one of the largest communication hubs in history. With its ability to share content and create community bonds, it has seen many fandoms and online social communities develop within the past decades. While there are some detriments to these communities, there are also many benefits and potential uses for the betterment of society. The Research Anthology on Fandoms, Online Social Communities, and Pop Culture explores the ways in which the internet has presented itself as a platform for communities to gather. This essential reference source discusses the engagement of these communities, social media use, and the uses of these communities for education.
