Harnett, Laureen P. Cantwell-Jurkovic, 2022-02-19 Service on Institutional Review Boards IRB and Institutional Animal Care and Use Committees IACUC is an uncommon activity for librarians Even librarians who participate in institutional research activities in a supportive capacity or conduct their own original research as scholars themselves and are familiar with the IRB IACUC research approval process they may hesitate to participate more fully with these boards There may be a perception that the

work of the IRB and IACUC is too scientifically complex for librarians without an appropriate background Library administrators may not advocate for librarian inclusion on the board for fear of additional burdens on the librarian's time and university administrators might need some convincing of the librarian's suitability to perform this work This book provides librarians with foundational knowledge of the IRB and IACUC describes the work of these important committees and expands librarians' conceptualization and knowledge of opportunities to create services and partnerships through participation The book provides a progressively more comprehensive understanding of the work of these committees Parts I and II discuss IRB and IACUC respectively their history functions and membership Part III highlights expanding roles for librarians on IRB and IACUC and in institutional research activities A special feature of this section describes the experiences of librarians in their own words who work with IRB or IACUC what they have learned how they have used their experiences to create partnerships and market library services and what role they see for libraries and librarians in institutional research

Instructional Consultation Teams: Collaborating For Change Gravois, Rosenfield, 2013-01-11 While there is considerable evidence for the effectiveness of school consultation teams for interventions with difficult or at risk students relatively little has been written on the implementation of such teams This book details that process and describes the important features of the Instructional Consultation Team including methods and instruments for evaluating student progress and system functioning Instructional Consultation Teams functions as a handbook for change The authors convincingly argue that the improvement of schools response to at risk students requires major modifications in the school culture and to engender that change professionals need special skills Bringing together literature on school consultation and school change this volume enables the school based professional who takes the role as change facilitator not only to implement new more effective services but also to ensure that the services become established functions of the school system
