Simplified Book C is designed to help students learn the elements of language and understand how they work together. Students review the kinds of sentences then they study nouns, pronouns and verbs and use these elements in sentences. Students are introduced to subjects and predicates, adverbs and adjectives. Proofreading is stressed; activities encourage students to look over all written work to be sure it is free of errors. Punctuation is covered in detail, including correct use of the period, question mark, exclamation point, comma and apostrophe. Capitalization of sentences, proper nouns and proper adjectives is reviewed. As they complete the book, students write independently and proofread their own work. Readability has been carefully controlled for younger students, but the approach and design make the book useful for older language delayed students or students who speak English as a second language. Answers are provided at the back of the book. Book C is Grades 4-5.

Blending Technologies in Second Language Classrooms Don Hinkelman, 2018-02-01. This book analyses the classroom blending of face-to-face and online technologies in the teaching and learning of second languages. Its theoretical framework integrates the rapidly changing and developing fields of both applied linguistics and computer-assisted language learning (CALL). It examines such themes as the normalization of the computer and the rise of mobile devices, the development of open educational resources, flipped learning, gamification and the increased focus on communication and problem-solving tasks in class. The author illustrates how the design or bricolage of blended learning is part of a radical shift in our conceptualisation of the learning environment. Building on the framework established in its first edition, this book will appeal to teachers in training, scholars and practitioners of second language education. **Annual Report** Iowa.
