Invisible Enemy Greta de Jong, 2010-04-12 This highly accessible account of the evolution of American racism outlines how colorblind approaches to discrimination ensured the perpetuation of racial inequality in the United States well beyond the 1960s A highly accessible account of the evolution of American racism its perpetuation and black people s struggles for equality in the post civil rights era Guides students to a better understanding of the experiences of black Americans and their ongoing struggles for justice by highlighting the interconnectedness of African American history with that of the nation as a whole Highlights the economic and political functions that racism has served throughout the nation s history Discusses the continuation of the freedom movement beyond the 1960s to provide a comprehensive new historiography of racial equality and social justice

A Different Day Greta de Jong, 2003-04-03 Examining African Americans struggles for freedom and justice in rural Louisiana during the Jim Crow and civil rights eras Greta de Jong illuminates the connections between the informal strategies of resistance that black people pursued in the early twentieth century and the mass protests that emerged in the 1950s and 1960s Using evidence drawn from oral histories and a wide range of other sources she demonstrates that rural African Americans were politically aware and active long before civil rights organizers arrived in the region in the 1960s to encourage voter registration and demonstrations against segregation De Jong explores the numerous often subtle methods African Americans used to resist oppression within the confines of the Jim Crow system Such everyday forms of resistance included developing strategies for educating black children creating strong community institutions and fighting back against white violence In the wake of the economic changes that swept the South during and after World War II these activities became more open and organized culminating in voter registration drives and other protests conducted in cooperation with civil rights workers Deeply researched and accessibly written A Different Day spotlights the ordinary heroes of the freedom struggle and offers a new perspective on black activism throughout the twentieth century *You Can't Eat*

Freedom Greta de Jong, 2016-08-30 Two revolutions roiled the rural South after the mid 1960s the political revolution wrought by the passage of civil rights legislation and the ongoing economic revolution brought about by increasing agricultural mechanization Political empowerment for black southerners coincided with the transformation of southern agriculture and the displacement of thousands of former sharecroppers from the land Focusing on the plantation regions of Alabama Louisiana and Mississippi Greta de Jong analyzes how social justice activists responded to mass unemployment by lobbying political leaders initiating antipoverty projects and forming cooperative enterprises that fostered economic and political autonomy efforts that encountered strong opposition from free market proponents who opposed government action to solve the crisis Making clear the relationship between the civil rights movement and the War on Poverty this history of rural organizing shows how responses to labor displacement in the South shaped the experiences of other Americans who were affected by mass layoffs in the late twentieth century shedding light on a debate that continues to reverberate today

Cooperatives in New Orleans Anne Gessler,2020-06-04 Cooperatives have been central to the development of New Orleans Anne Gessler asserts that local cooperatives have reshaped its built environment by changing where people interact and with whom helping them collapse social hierarchies and envision new political systems Gessler tracks many neighborhood cooperatives spanning from the 1890s to the present whose alliances with union consumer and social justice activists animated successive generations of regional networks and stimulated urban growth in New Orleans Studying alternative forms of social organization within the city s multiple integrated spaces women people of color and laborers blended neighborhood based African Caribbean and European communal activism with international cooperative principles to democratize exploitative systems of consumption production and exchange From utopian socialist workers unions and Rochdale grocery stores to black liberationist theater collectives and community gardens these cooperative entities integrated marginalized residents into democratic governance while equally distributing profits among members Besides economic development neighborhood cooperatives participated in heady debates over urban land use applying egalitarian cooperative principles to modernize New Orleans s crumbling infrastructure monopolistic food distribution systems and spotty welfare programs As Gessler indicates cooperative activists deployed street level subsistence tactics to mobilize continual waves of ordinary people seizing control over mainstream economic and political institutions *Our Minds on Freedom* Shannon Frystak,2009-12 *Our Minds on Freedom* examines the role of women as organizers and leaders in the black struggle for equality in Louisiana Using gender as a basic organizing principle in combination with other systems of inequality race and class it challenges the notion that men led women organized and places female activism regardless of gendered expectations at the center The author concludes that women were not passive participants in the Louisiana civil rights movement but leaders and heroines in their own right

The Plunder of Black America Calvin Schermerhorn,2025-02-11 The long history of the racial wealth gap in America told through the stories of seven Black families who struggled to build wealth over multiple generations Wealth is central to the American pursuit of happiness and is an overriding measure of well being Yet wealth is conspicuously absent from African American households Why do some 3 5 million Black American families have zero or negative wealth Historian Calvin Schermerhorn traces four hundred years of Black dispossession and decapitalization what Frederick Douglass called plunder through the stories of families who have strived to earn and keep the fruits of their toils Their struggles reveal that the ever evolving strategies to strip Black income and wealth have been critical to sustaining a structure of racialized disadvantage These accounts also tell of the quiet heroism of those who worked to overcome obstacles and defy the plunder From the story of Anthony and Mary Johnson abducted from Angola and brought to Virginia in 1619 to the enslaved Black workers dispossessed by the Custis Washington family to Venture Smith born Brotoer Furro who purchased his freedom to three generations of a family enslaved in the South who moved north after Emancipation to the Tulsa massacre and the subprime lending crisis Schermerhorn shows that

we cannot reckon with today's racial wealth inequality without understanding its unrelenting role in American history *Of Light and Struggle* Debbie Sharnak, 2023-06-20 During the country's dictatorship from 1973 to 1985 Uruguayans suffered under crushing repression which included the highest rate of political incarceration in the world In *Of Light and Struggle* Debbie Sharnak explores how activists transnational social movements and international policymakers collaborated and clashed in response to this era and during the country's transition back to democratic rule At the heart of the book is an examination of how the language and politics of human rights shifted over time as a result of conflict and convergence between local national and global dynamics Sharnak examines the utility and limits of human rights language used by international NGOs such as Amnesty International and foreign governments such as the Carter administration She does so by exploring tensions between their responses to the dictatorship's violations and the grassroots struggle for socioeconomic rights as well as new social movements around issues of race gender religion and sexuality in Uruguay Sharnak exposes how international activists used human rights language to combat repression in foreign countries how local politicians unionists and students articulated more expansive social justice visions how the military attempted to coopt human rights language for its own purposes and how broader debates about human rights transformed the fight over citizenship in renewed democratic societies By exploring the interplay between debates taking place in activists living rooms presidential administrations and international halls of power Sharnak uncovers the messy and contingent process through which human rights became a powerful discourse for social change and thus contributes to a new method for exploring the history of human rights By looking at this pivotal period in international history *Of Light and Struggle* suggests that discussions around the small country on the Rio de la Plata had global implications for the possibilities and constraints of human rights well beyond Uruguay's shores

Migrant Citizenship Verónica Martínez-Matsuda, 2020-06-26 An examination of the Farm Security Administration's migrant camp system and the people it served Today's concern for the quality of the produce on our plates has done little to guarantee U.S. farmworkers the necessary protections of sanitary housing medical attention and fair labor standards The political discourse on farmworkers' rights is dominated by the view that migrant workers are not entitled to better protections because they are noncitizens as either immigrants or transients Between 1935 and 1946 however the Farm Security Administration (FSA) intervened dramatically on behalf of migrant families to expand the principles of American democracy advance migrants' civil rights and make farmworkers visible beyond their economic role as temporary laborers In more than one hundred labor camps across the country migrant families successfully worked with FSA officials to challenge their exclusion from the basic rights afforded by the New Deal In *Migrant Citizenship* Verónica Martínez-Matsuda examines the history of the FSA's Migratory Labor Camp Program and its role in the lives of diverse farmworker families across the United States describing how the camps provided migrants sanitary housing full on-site medical service a nursery school program primary education home demonstration instruction food for a healthy diet recreational programming and lessons in participatory democracy through self-governing councils In these ways she argues the camps functioned as more than just labor centers aimed at improving agribusiness efficiency Instead they represented a profound experiment in democracy seeking to secure migrant farmworkers full political and social participation in the United States In recounting this chapter in the FSA's history *Migrant Citizenship* provides insights into public policy concerning migrant workers federal intervention in poor people's lives and workers' cross-racial movements for social justice and offers a precedent for those seeking to combat the precarity in farm labor relations today

The State of Conservation Joshua Nygren,2025-01-07 **In the Balance of Power** Omar H. Ali,2020-08-18 Reveals the multiple independent political tactics and strategies that African Americans have used to expand democracy and uphold civil and political rights since the founding of the nation This new edition of Ali s groundbreaking narrative includes an epilogue by independent political analyst and leader Jacqueline Salit New material addresses the historic presidencies of both Barack Obama and Donald Trump as well as the rising tide of independent and anti party sentiments Fritzie Amy

Absher,2023-09-19 One January day in 1923 a young boy came across the dead body of a twenty year old woman on a San Diego beach When the police arrived on the scene they found the woman s calling card which read simply I am Fritzie Mann Yet Fritzie s identity as revealed in this compelling history was anything but simple and her death eventually ruled a homicide captured public attention for months In Fritzie historian Amy Absher reveals how broader cultural forces including gendered violence sexual liberation and evolving urban conditions in the American West shaped the course of Mann s life and contributed to her tragic death Frieda Fritizie Mann had several identities during her brief life and the mysterious circumstances of her death raise as many questions as they do answers She was born in 1903 near the present border between Poland and Ukraine She and her family were Jewish immigrants who traveled to San Diego to find security and prosperity In the last year of her life Mann became locally famous She had reinvented herself as a flapper and Oriental dancer She claimed to have friends in Hollywood and a movie contract On the night of her murder she said she was going to a party to meet her Hollywood friends instead she traveled to an isolated roadside hotel where she met her death An autopsy revealed that she was four and a half months pregnant Absher guides the reader through the intricacies of this true crime story as it unfolded from the initial flawed investigation to the sensationalized press coverage and the ultimate failure of the legal system to ensure justice on Mann s behalf Like other new women of her era Fritzie Mann adopted roles that promised liberation from the control of men In the end her life and early death suggest the opposite she became the victim of a culture that consumed women even as it purported to celebrate them **A Working People** Steven A. Reich,2013-09-12 In this book historian Steven A Reich examines the economic political and cultural forces that have beaten and built America s black workforce since Emancipation From the abolition of slavery through the Civil Rights Movement and Great Recession African

Americans have faced a unique set of obstacles and prejudices on their way to becoming a productive and indispensable portion of the American workforce. Repeatedly denied access to the opportunities all Americans are to be afforded under the Constitution, African Americans have combined decades of collective action and community mobilization with the trailblazing heroism of a select few to pave their own way to prosperity. This latest installment of the African American History Series challenges the notion that racial prejudices are buried in our nation's history and instead provides a narrative connecting the struggles of many generations of African American workers to those felt the present day. Reich provides an unblinking account of what being an African American worker has meant since the 1860s, alluding to ways in which we can and must learn from our past for the betterment of all workers, however marginalized they may be.

A Working People: A History of African American Workers Since Emancipation is as factually astute as it is accessibly written, a tapestry of over 150 years of troubled yet triumphant African American labor history that we still weave today.

Beyond Forty Acres and a Mule Debra A. Reid, Evan P. Bennett, 2012-06-10. This collection chronicles the tumultuous history of landowning African American farmers from the end of the Civil War to today. Each essay provides a case study of people in one place at a particular time and the factors that affected their ability to acquire, secure, and protect their land. The contributors walk readers through a century and a half of African American agricultural history from the strivings of black farm owners in the immediate post-emancipation period to the efforts of contemporary black farm owners to receive justice through the courts for decades of discrimination by the U.S. Department of Agriculture. They reveal that despite enormous obstacles, by 1920 a quarter of African American farm families owned their land and demonstrate that farm ownership was not simply a departure point for black migrants seeking a better life but a core component of the African American experience.

Civil Rights History from the Ground Up Emilye Crosby, 2011. After decades of scholarship on the civil rights movement at the local level, the insights of bottom-up movement history remain essentially invisible in the accepted narrative of the movement and peripheral to debates on how to research, document, and teach about the movement. This collection of original works refocuses attention on this bottom-up history and compels a rethinking of what and who we think is central to the movement. The essays examine such locales as Sunflower County, Mississippi; Memphis, Tennessee; and Wilson, North Carolina, and engage such issues as nonviolence and self-defense, the implications of focusing on women in the movement, and struggles for freedom beyond voting rights and school desegregation. Events and incidents discussed range from the movement's heyday to the present and include the Poor People's Campaign, the mule train to Washington, D.C., the popular response to the deaths of Rosa Parks and Coretta Scott King, and political cartoons addressing Barack Obama's presidential campaign. The kinds of scholarship represented here, which draw on oral history and activist insights along with traditional sources and which bring the specificity of time and place into dialogue with broad themes and a national context, are crucial as we continue to foster scholarly debates, evaluate newer conceptual frameworks, and replace the superficial narrative that persists in the popular

imagination **Pure Fire** Christopher B. Strain, 2005 In this study of self defense as it was debated and practiced during the civil rights era the decision to defend oneself and family is reframed in terms of a daily concern for many African Americans who faced the continual menace of white aggression Simultaneous [I Don't Like the Blues](#) B. Brian Foster, 2020-10-08 How do you love and not like the same thing at the same time This was the riddle that met Mississippi writer B Brian Foster when he returned to his home state to learn about Black culture and found himself hearing about the blues One moment Black Mississippians would say they knew and appreciated the blues The next they would say they didn't like it For five years Foster listened and asked How Why not Will it ever change This is the story of the answers to his questions In this illuminating work Foster takes us where not many blues writers and scholars have gone into the homes memories speculative visions and lifeworlds of Black folks in contemporary Mississippi to hear what they have to say about the blues and all that has come about since their forebears first sang them In so doing Foster urges us to think differently about race place and community development and models a different way of hearing the sounds of Black life a method that he calls listening for the backbeat **Development Drowned and Reborn** Clyde Woods, 2017-07-01 Development Drowned and Reborn is a Blues geography of New Orleans one that compels readers to return to the history of the Black freedom struggle there to reckon with its unfinished business Reading contemporary policies of abandonment against the grain Clyde Woods explores how Hurricane Katrina brought long standing structures of domination into view In so doing Woods delineates the roots of neoliberalism in the region and a history of resistance Written in dialogue with social movements this book offers tools for comprehending the racist dynamics of U S culture and economy Following his landmark study Development Arrested Woods turns to organic intellectuals Blues musicians and poor and working people to instruct readers in this future oriented history of struggle Through this unique optic Woods delineates a history methodology and epistemology to grasp alternative visions of development Woods contributes to debates about the history and geography of neoliberalism The book suggests that the prevailing focus on neoliberalism at national and global scales has led to a neglect of the regional scale Specifically it observes that theories of neoliberalism have tended to overlook New Orleans as an epicenter where racial class gender and regional hierarchies have persisted for centuries Through this Blues geography Woods excavates the struggle for a new society
