Jazz Historiography Daniel Hardie, 2013-12-11 Jazz has been around for over a hundred years but how much do we know about its history and how much of what think we know is true Beginning in the so called Jazz Age of the 1920s jazz history was recounted and interpreted by admiring authors and record collectors both in the United States and elsewhere However since the early 1990s some historians have come to doubt the validity of the conventional narrative of the story of jazz and some of its most hallowed traditions In *Jazz Historiography The Story of Jazz History Writing* Daniel Hardie uncovers the course of jazz history writing from early Jazz Age American and French publications to Academic texts in the 2000s and seeks answers to questions about the accuracy of those accounts and the influence they have had on our understanding of jazz history even the impact they might have had on the course of jazz history itself How much for example did the work of jazz historians influence the course of the New Orleans Revival Was the appearance of bebop in the 1940s a revolutionary response to oppression experienced by Afro American musicians in a commercialized popular music industry or was it an attempt to mirror the development of classical music of the time How has the development of University jazz studies influenced the writing of jazz history

Interaction, Improvisation, and Interplay in Jazz Robert Hodson, 2007-01-18 Interaction Improvisation and Interplay in Jazz Performance offers a new and exciting way to listen to and understand jazz When describing a performance most jazz writers focus on the improvised lines of the soloist and their underlying harmonic progressions This approach overlooks the basic fact that when you listen to jazz you almost never hear a single line but rather a musical fabric woven by several musicians in real time While it is often pragmatic to single out an individual solo line it is important to remember that an improvised solo is but one thread in that fabric and it is a thread supported by responded to and responsive of the parts being played by the other musicians in the group Interaction Improvisation and Interplay in Jazz Performance explores the process of player interaction in jazz and the role this interaction plays in creating improvised music including jazz improvisation through theory and analysis musical roles behaviours and relationships harmony interaction and performance Interaction Improvisation and Interplay in Jazz Performance will appeal to students of jazz history composition and performance as well as to the general jazz audience
