

Human Growth & Development Through the Life Stages

14 pages | 3346 words

In this assignment I will research on the lifespan of someone in older adulthood 65+ years that I know personally and I'll conduct an interview with my chosen individual. My chosen individual was my Grandma. She is 95 years old and she has experienced all the life stages expect for one because she has not reached them yet. Here is the information I found out about her physical, intellectual, social and emotional development during each life stage.

P1: Task 1 Describe physical, intellectual, emotional and social development for each of the life stages of an individual.

Physical Development

Physical Development of my Grandma from Life stage 3 my grandma at the age of 3 could go to the toilet on her own. This was due to environment around her. In life stage 4: Childhood the main that happened to her was the start of school because she was so protect an became more aware of herself physical especially when she was age 10. Life stage 5: Adolescence. Is when puberty started and physical my grandma could see that she had inherited a lot of physical features for example her mother and her grandma had large breast and she started developing large breast. Her period start and because my grandma got married young this meant she could have her first child and in Africa this is a big thing because this means that you have become a lady.

Life stages 6 Adult hood, in this time my grandma said that in the begin of this stage when she was 21-22 years old that she was at her peak she had three kid and was happy but as the years pasted and she had more children it started become difficult and tried. She said "at first it felt weird but when I got use to it better this way". Life stage 7: Older Adulthood My Grandmother is 95 years old so physical she is in good shape she can still walk and move around, but the illness that makes get around because she got arthritis but as for everything else is good.

Intellectual Development

Intellectual Development of my grandma. Life stage 3: 0-3 years language skills developed because she could understand her native language and French this mad communication with the other around her easier. When she was 4-10 years old Life stage 4: Childhood the start of school was the main thing her it allowed her to learn new things and she enjoy it. Her each improve and by the year of 6 she could write and read in fluent French and her native language. My grandma at 8 years old use to families because with her sibling. By the time she was 10 her parent could not effort to send her to school anymore.

Life stage 5: adolescence because my grandmother had to drop out of school she wanted to get married so she did at the age of 14, this allowed her to develop her mind more then the other girls in her age...

Kirsten Majgaard,Alain Mingat,2012-06-26 Education in Sub Saharan Africa A Comparative Analysis takes stock of education in Sub Saharan Africa by drawing on the collective knowledge gained through the preparation of Country Status Reports for more than 30 countries *World 3.0* Pankaj Ghemawat,2011-04-26 Since the financial crisis of 2008 many of us have had to

reexamine our beliefs about markets and globalization How integrated should economies really be How much regulation is right Many people fuse these two dimensions of choice into one either favoring both globalization and deregulation or opposing both of them It doesn't have to be that way In World 3 0 award winning author and economist Pankaj Ghemawat reveals the folly in both of these responses He calls for a third worldview one in which both regulation and cross border integration coexist and complement one another Ghemawat starts by exposing common assumptions about globalization to hard data proving that the world is not nearly as globalized as we think And he explains why the potential gains from further integration are much larger than even pro globalizers tend to believe He then tackles market failures and fears job losses environmental degradation macroeconomic volatility and trade and capital imbalances that opponents of globalization often invoke Drawing on compelling data he shows that increased globalization can actually alleviate some of these problems Finally Ghemawat describes how a wide range of players businesses policy makers citizens media can help open up flows of ideas people and goods across borders but in ways that maximize the benefits and minimize the potential side effects World 3 0 dispels powerfully entrenched but incorrect assumptions about globalization Provocative and bold this new book explains how people around the world can secure their collective prosperity through new approaches to cross border integration Ghemawat's thinking will surprise and move you no matter where you stand on globalization **23 Years CSAT General**
