

## Plant nutrition and transport

### CORE questions

#### Core 1

(a) The chemical equation for photosynthesis shown below is incomplete.

- |         |                                                                                                                                                          |     |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| (i)     | Complete the equation in <b>either</b> symbols <b>or</b> words.                                                                                          | [2] |
| (ii)    | State the source of energy for this reaction.                                                                                                            |     |
|         | [1]                                                                                                                                                      |     |
| (iii)   | Name the plant pigment necessary for this reaction.                                                                                                      |     |
|         | [1]                                                                                                                                                      |     |
| (iv)    | Which mineral is needed by a plant to form this pigment?                                                                                                 |     |
|         | [1]                                                                                                                                                      |     |
| (b) (i) | Name the tissue in which the sugar produced in photosynthesis is carried to other parts of the plant.                                                    |     |
|         | [1]                                                                                                                                                      |     |
| (ii)    | In many plants some of the sugar formed in photosynthesis is converted to starch for storage. Explain the advantage of storing starch rather than sugar. |     |
|         | [2]                                                                                                                                                      |     |
| (iii)   | Name the carbohydrate, formed from sugar produced in photosynthesis, which is used to build cell walls.                                                  |     |
|         | [1]                                                                                                                                                      |     |
