Charting Reform, Achieving Equity in a Diverse Nation Gail L. Sunderman, 2013-05-01 This book examines what equity means in a nation where the schools are becoming more diverse The authors consider how well our educational reform policies often framed in the language of equity and opportunity measure up to the challenges of achieving equity in a diverse nation While there is growing awareness of the increasing racial ethnic and socioeconomic diversity of the nation there is little recognition of how these trends affect the schools particularly in formerly homogeneous communities At the same time inequalities in student achievement between different racial ethnic and socioeconomic groups persist even as educational policy has intensified the focus on the achievement gap These two challenges make definitions of equity and opportunity as urban problems obsolete and call for a critical examination of educational policy and reform from an equity perspective Central themes include the critical examination of how equity is conceived under the law and in policy the experiences of minority students in suburban schools and the impact of current reform policies and strategies for achieving greater educational opportunities for all students This book is designed for graduate and undergraduate courses in educational policy and policy analysis for policymakers interested in a critical examination of current reform policies and options and educational leaders and administrators struggling with the implementation of reform mandates From a policy perspective it includes a survey of the evolution of educational policies and reforms since the 1960s and traces the mix of legal and legislative legacies that have informed educational policy and equity It describes how trends in suburban diversification affect the schools something that has largely escaped the attention of educational reformers It provides school based and non school based remedies for achieving equity in diversifying suburban communities and articulates alternatives to the current accountability for performance approach It offers new and innovative analyses of current approaches to school reform including an analysis of how accountability tests can create the illusion of reducing the achievement gap and an examination of the paradoxes of federally funded compensatory policies that incorporate market based strategies Novel approaches such as social emotional learning and placed based college access strategies are examined through an equity lens

Latinos in the Midwest Rubén O. Martinez, 2011-06-01 Over the past twenty years the Latino population in the Midwest has grown rapidly both in urban and rural areas As elsewhere in the country shifting demographics in the region have given rise to controversy and mixed reception Where some communities have greeted Latinos openly others have been more guarded In spite of their increasing presence Latinos remain the most marginalized major population group in the country In coming years the projected growth of this population will require greater attention from policymakers concerned with helping to incorporate them into the nation s core institutions This eye opening collection of essays examines the many

ways in which an increase in the Latino population has impacted the Midwest culturally economically educationally and politically Drawing on studies personal histories legal rulings and other sources this book takes an interdisciplinary approach to an increasingly important topic in American society and offers a glimpse into the nation s demographic future

words that the country has moved away from prejudice based on skin color and we live in a colorblind society The reality however is the opposite African Americans continue to face both explicit and latent discriminations in housing healthcare education and every facet of their lives Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality the problem of the twenty first century is still the problem of the color line In *Race Still Matters* contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences hate crimes race and popular culture residual discrimination economic and occupational opportunity gaps healthcare disparities education law enforcement issues youth culture and the depiction of Black female athletes The volume offers irrefutable evidence that race still very much matters in the United States today **Grassroots School Reform** K. Community Engagement in Higher Education W. James Jacob, Stewart E. Sutin, John C. Weidman, John L. Yeager, 2015-06-17 There seems to be renewed interest in having universities and other higher education institutions engage with their communities at the local national and international levels But what is community engagement Even if this interest is genuine and widespread there are many different concepts of community service outreach and engagement The wide range of activity encompassed by community engagement suggests that a precise definition of the community mission is difficult and organizing and coordinating such activities is a complex task This edited volume includes 18 chapters that explore conceptual understandings of community engagement and higher education reforms and initiatives intended to foster it Contributors provide empirical research findings including several case study examples that respond to the following higher education community engagement issues What is the community and what does it need and expect from higher education institutions Is community engagement a mission of all types of higher education institutions or should it be the mission of specific institutions such as regional or metropolitan universities technical universities community colleges or indigenous institutions while other institutions such as major research universities should concentrate on national and global research agendas and on educating internationally competent researchers and professionals How can a university be global and at the same time locally relevant Is it or should it be left to the institutions to determine the scope and mode of their community engagement or is a state mandate preferable and feasible If community engagement or community service are mandatory what are the consequences of not complying with the mandate How effective are policy mandates and university engagement for regional and local economic development What are the principal features and relationships of regionally engaged universities Is community engagement to be left to faculty members and students who are particularly socially engaged and locally embedded or is it or should it be made mandatory for both faculty and students How can community engagement be better integrated with the other two traditional missions of the university research and teaching Cover image The Towering Four fold Mission of Higher Education by Natalie Jacob U.C.
