Research Handbook on the Law and Politics of Migration Catherine Dauvergne, 2021-04-30 As the law and politics of migration become increasingly intertwined this thought provoking Research Handbook addresses the challenge of analysing their growing relationship Discussing the evolving theoretical approaches to migration it explores the growing attention given to the legal frameworks for migration and the expansion of regulation as migration moves to the centre of the political global agenda The Research Handbook demonstrates that the overlap between law and politics puts the rule of law at risk in matters of migration **Canada Tourism eBook** GURMEET SINGH DANG, **Crossing Law's Border** Shauna Labman, 2019-11-01 The UN Refugee Agency considers resettlement the selection and transfer of refugees from the state where they seek asylum to another state that volunteers to take them a tool of refugee protection and an expression of international burden sharing In this account of Canada's resettlement program from the Indochinese crisis of the 1970s to the Syrian crisis of the 2010s Shauna Labman explores how rights responsibilities and obligations intersect in the absence of a legal scheme for refugee resettlement In particular she examines the role of the law on the voluntary act of resettlement and the effect of resettlement on asylum policies This pathbreaking book looks at the interplay between resettlement and asylum in one of the world's most successful refugee protection programs and shows how resettlement can either complement or complicate in country asylum claims at a time when refugee crises and fear of outsiders are causing countries to close their borders to asylum seekers around the world *Canada as a selective power* Marcin Gabryś, Tomasz Soroka, 2017-12-31 The academic study of Canada has traditionally been the realm of Canadian scholars For this reason it is easy for outsiders to view Canada as a semi Nordic continental utopia existing peacefully under a benign government that seeks only peace and harmony in the world The reality is a more complicated story That is the strength of this outstanding new book written by two young Polish scholars specializing in Canadian affairs They have put together an impressively researched monograph that combines a detailed analysis outlining a rather basic premise The world has changed dramatically since 1989 and Canada has changed with it In this well argued narrative they argue that in recent years Canada's foreign policy has become one primarily based on interests rather than the promotion of untainted altruism or stereotypical Canadian values They argue that since 1989 Canadian foreign policy has moved from the more modest aims of a middle power to a more self assertive role of a selective power pursuing more narrowly chosen priorities and often based on simple profit and loss calculations that have clashed with Canada's traditional favorable image in the world even if few outside of Canada seemed to notice **Strangers to Neighbours** Shauna Labman, Geoffrey Cameron, 2020-09-23 As a leading country in global refugee resettlement Canada operates a unique program that allows private groups and individuals to sponsor refugees This innovative approach has received growing international attention but there remains a need for a more

expansive understanding of the sponsorship framework and its potential implications within Canada and across the world Strangers to Neighbours explains the origins and development of refugee sponsorship paying particular attention to the unintended consequences and ethical dilemmas it produces for refugee policy The contributors to this collection draw upon law social science and philosophy to bring a more robust and objective perspective on Canada s historical experience with sponsorship into wider conversations about the refugee crisis and resettlement Together they present recent cases that exemplify how the model has been applied and how it functions while also analyzing the challenges that emerge in host sponsor relations This volume further examines how sponsorship has been implemented differently in countries such as the United States and Australia The first dedicated study of refugee sponsorship policy Strangers to Neighbours assembles leading scholars from a range of disciplines to consider whether Canada s system is indeed a sustainable model for the world

Race, Ethnicity, and the Participation Gap Juliet Pietsch, 2018-11-21 Race Ethnicity and the Participation Gap begins with the argument that political institutions in settler and culturally diverse societies such as Australia the United States and Canada should mirror their culturally diverse populations Compared to the United States and Canada however Australia has very low rates of immigrant and ethnic minority political representation in the Commonwealth Parliament particularly in the House of Representatives The overall existence of racial hierarchies within formal political institutions represents an inconsistency with the democratic ideals of representation and accountability in pluralist societies Drawing on findings from the United States Canada and Australia Juliet Pietsch reveals that the lack of political representation in Australia is significant when compared to the United States and Canada revealing a serious democratic deficit Her book is devoted to exploring this central puzzle why is it that despite having a similar history to other settler countries Australia shows such comparatively low rates of political participation among its immigrant and ethnic minority populations from non British and European backgrounds In addressing this crucial question Race Ethnicity and the Participation Gap examines the impact of Australia's alternative path on the political representation of immigrants and ethnic minorities
