Outdoor Learning through the Seasons Ann Watts, 2020-05-14 Outdoor learning and play experiences are an essential part of young children's development. The importance of offering children first hand experience of the natural world becomes more urgent as research evidence demonstrates the benefits of becoming physically and emotionally involved with the natural world. *Outdoor Learning through the Seasons* shows how we can encourage young children to engage with nature on a daily basis throughout the year. Using the four seasons as a framework it supports adults to develop their own awareness of the world around them and feel confident about taking children outside every day. There are suggestions for caring for gardens and wildlife through the year and ideas to brighten grey winter days, enjoy the summer sunshine or explore in the snow. Now featuring full colour photographs throughout this new edition has been updated to include references to recent research, new material on Forest Schools, discussion questions for practitioners and in depth case studies of learning in action. Features include: Ideas for all seasons, weather conditions and working with the four elements earth, air, water and fire. Guidance on fulfilling the learning requirements of EYFS and the Characteristics of Effective Learning. Advice on working with parents and the role of adults. Practical tips and suggestions of how to make the most of a small space or how to re-plan an existing space. Useful reference lists of further resources including stories, poems and websites. This practical book is essential reading for all those looking to provide rich and stimulating outdoor learning and play provision for children in early years settings on a daily basis and for parents and carers wishing to get the most of time outdoors with their children.

Autism Through A Sensory Lens Joy Beaney, 2020-08-10 The fully revised second edition of this easy to use resource introduces the sensory differences autistic children may face and explores how these differences can affect their ability to make sense of the world. It is invaluable in helping those adults working with autistic children to identify the possible triggers for the child's behaviour and consider it through a sensory lens. Children have varying sensory needs so the book offers both a wealth of enjoyable activities for sensory exploration and play whilst also providing suggestions for strategies and ideas that can be used at home or in school to create an autism friendly environment. This book highlights the possible link between behaviours that challenge and sensory difficulties for autistic children. Provides practical and accessible resources helping parents, carers and practitioners to gain a greater understanding of sensory differences. Includes an online assessment with accompanying aids to create a visual representation of the child's sensory needs. With both downloadable and photocopiable resources this practical guide will be an essential tool for parents, carers and practitioners working with autistic children enabling them to create a visual profile of areas of difficulty which can form the basis of personalised strategies and fun sensory activities to support the child.
