Metropolitan Management, Transportation and Planning ,1909 Electric Traction ,1912 **Male Car Owners' Perception and Buying Behaviour** Dr. G. Yoganandan,Mr. E. Pugazh,2015-03-03 About the book Indian passenger car industry is considered as the mother industry for many other industries Industries like rubber pain glass electrical and electronics industries get lot of demand from the passenger car industry and thereby they prosper or suffer along with car industry The growth of Indian car industry can be associated with the fact that the India s strong engineering base and expertise in the manufacturing of low cost fuel efficient cars has resulted in the expansion of manufacturing facilities of several multinational automobile giants like BMW Mercedes Benz Hyundai Nissan Toyota Volkswagen and Maruti Suzuki Also it should be noted that the new generation of employees who constituted the major chunk of the Indian middleclass exhibited more sending orientation rather than saving orientation The car was once considered as a luxury item but slowly people started treating it as a facility The Indian car buyers are price conscious and also expect less maintenance expense and low running cost Therefore the people always has to think whether to go for petrol or diesel car since the petrol car is cheaper in terms of initial purchase price and low maintenance cost but on the other hand a diesel car is cheaper in terms of higher mileage and also cheaper fuel price until now The book focuses on the study that aimed at finding out the change in buying behavior of customers towards purchase of cars and their perception towards petrol and diesel cars This book would be handy to researchers undergraduate and postgraduate students belonging to management studies commerce economics and sociology disciplines to understand the buying behavior through a real world case study *Automotive Industries* ,1909

Transit Journal ,1926 *Can Cars Come Clean? Strategies for Low-Emission Vehicles* OECD,2004-03-10 This report identifies policy options and makes recommendations on market oriented actions to promote the purchase of the most environmentally friendly vehicles Manufacturability and Costs of Proposed Low-emissions Automotive Engine Systems United States. Environmental Protection Agency,1975 **Open the Windows** Sukant Ratnakar,2011-11-01 An incisive and thought provoking compilation of facts ideas anecdotes and episodes accentuating the significance of ingenuity originality and empirical knowledge Deadlines rigid systems standard operating procedures and targets often force us to come up with static solutions in today s dynamic world But in today s world scenario we need people who can think who are creative and who get inspired by the things around them Open the Windows will unleash the power of your observations and make you look at the world differently Learn how to find innovative solutions to the day to day challenges you face in both your personal and professional lives This powerful book on self empowerment and leadership principles offers a wealth of ideas and techniques for achieving success The author conveys fundamental principles of management and the art of living in a

lucid manner and eventually relates his experiences to India and talks about how we can grow and become a force to reckon with in today's world. He also gives a refreshing perspective on how managers of the 21st century need to approach situations if India is to live up to its actual potential.
