PC/Computing ,1996-05 *How to Kill a Vampire* Liisa Ladouceur,2013-09-01 A fascinating investigation of what strikes fear in an immortal s heart Vampires exist And in every culture with a legend about bloodsuckers that rise from the grave to prey upon the living there are rules and rituals for how to destroy them How to Kill a Vampire is the first book to focus specifically on all known ways to prevent vampirism protect oneself against attacks and ultimately how to destroy the undead as documented in folklore as well as horror film TV and books Covering everything from obscure legends to contemporary blockbusters Ladouceur s unique approach to vampires traces the evolution of how to kill the fictional creatures and celebrates the most important slayers In exploring how and why we create these monsters and the increasingly complex ways in which we destroy them the book not only serves as a handy guide to the history and modern role of the vampire it reveals much about the changing nature of human fears **A Web of Fantasies** Patricia B. Salzman-Mitchell,2005 Drawing on recent scholarship in art film literary theory and gender studies A Web of Fantasies examines the complexities symbolism and interactions between gaze and image in Ovid s Metamorphoses and forms a gender sensitive perspective It is a feminist study of Ovid s epic which includes many stories about change in which discussions of viewers viewing and imagery strive to illuminate Ovid s constructions of male and female Patricia Salzman Mitchell discusses the text from the perspective of three types of gazes of characters looking of the poet who narrates visually charged stories and of the reader who sees the woven images in the text Arguing against certain theorists who deny the possibility of any feminine vision in a male authored poem the author maintains that the female point of view can be released through the traditional feminine occupation of weaving featuring the woven images of Arachne involved in a weaving contest in which she tried to best the goddess Athena who turned her into a spider and Philomela who had her tongue cut out so had to weave a tapestry depicting her rape and mutilation The book observes that while feminist models of the gaze can create productive readings of the poem these models are too limited and reductive for such a protean and complex text as Metamorphoses This work brings forth the pervasive importance of the act of looking in the poem which will affect future readings of Ovid s epic BOOK JACKET
