interests in sexuality women's needs for reproductive control and the legitimacy of sexual inquiry The legacy of this important but largely unrecognized moment in American history must be reckoned with in our contentious present as many of the issues Ernst and his colleagues defended are still under attack eight decades later *Transnational Horror Across Visual Media* Dana Och, Kirsten Strayer, 2013-10-15 This volume investigates the horror genre across national boundaries including locations such as Africa Turkey and post Soviet Russia and different media forms illustrating the ways that horror can be theorized through the circulation reception and production of transnational media texts Perhaps more than any other genre horror is characterized by its ability to be simultaneously aware of the local while able to permeate national boundaries to function on both regional and international registers The essays here explore political models and allegories questions of cult or subcultural media and their distribution practices the relationship between regional or cultural networks and the legibility of international horror iconography across distinct media The book underscores how a discussion of contemporary international horror is not only about genre but about how genre can inform theories of visual cultures and the increasing permeability of their borders
