

METODAT EFEKTIVE TË TË MËSUARIT

Ne mendojmë shumë për metodat efektive të mësimdhënies dhe nuk mendojmë mjaftueshëm për metodat efektive të të mësuarit.

Mësimi duhet të përfshijë dy komponentë kryesore dërgimin dhe marrjen e informacionit.

Çdo metodë komunikimi që i shërben këtij qëllimi, pa cenuar objektivin e mësimit, mund të konsiderohet si metoda e re në mësimdhënie.

Në këtë mënyrë:

- Përfitojmë metoda të reja mësimore
- Përmirësojmë procesin e të mësuarit
- Forcojmë arsimin

value of an education system focusing solely on the intellectual and physical aspects of human development. The methodological aim and structure of this approach are compared to those of Islam which Dr Al Zeera notes gives credence to the importance of spiritual and religious factors as well as scholarly ones with the overall objective of forming whole and holy human being who instead of resisting the paradoxes of life uses their interrelatedness as a means of personal and societal development. One interesting factor examined within the broader framework of the study is the area of female spirituality an element which the author argues is vastly under represented in prevalent Islamic literature. This study is a holistic view of knowledge and a sociological discussion adopting an unconventional approach of using the author's own personal experiences as the basis for debate and analysis. We are invited to enter the world of understanding and observation to experience for ourselves an unusual approach to dialectical thinking. This is a collection of works translated in Albanian aimed at showing how anthropology emerged and developed in Albania at the crossroad of Eastern and Western Europe. Albert Doja tries to identify different forms of distinction between folkloric ethnographic studies and contemporary anthropology emphasizing the necessity of embracing anthropological methodology in today's Albanian studies as a way to analyze and interpret Albanian specificities as an integral part of world processes. In these writings he explores a number of issues related to the state of Albanian studies cultural heritage and national history including the social political ideological cultural and moral transformations related to identity processes religious questions or gender relations. His comparative analyses of history culture politics and society in Albania and Southeast Europe reveals the various academic cultures in which he had contributed and had gained experience including the debates between structural anthropology and post structuralism in the perspective of new theoretical approaches. *Bashkimi Evropian në shekullin XXI - institucionet ekonomike* Maurice Dourousset, 2004.

Albanian: Muslim Contributions to World Civilization M. Basheer Ahmed, Syed A. Ahsani, & Dilnawaz A. Siddiqui, 2019-01-01. Islam's brilliant contributions to science art and culture are a timeless and precious heritage which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education and today their identity origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences medicine legal and political theories and practices economic and financial concepts models and institutions etc. The preservation of civilization necessitates a better understanding sharing and recognition of our common human heritage. Given today's widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims the

publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being perpetrated and restore the historical truth which is being distorted
