FCC Record United States. Federal Communications Commission, 2015 *Long-haul and Access Networks, Optical Metro, and WDM* A. Lord, D. W. Faulkner, D. W. Smith, 2001 This volume contains the proceedings of the NOC 2001 at Adastral park UK June 26 29 2001 With about 70 papers this book highlights the gigabit ethernet PON developments and other work on standard broadband PONs such as dynamic bandwidth assignment There are 10 papers on optical packet switching and work on optical cross connects and DWDM for long haul systems is presented **The Fallacy of Net Neutrality** Thomas W. Hazlett, 2011 There is little dispute that the Internet should continue as an open platform notes the Federal Communications Commission Yet in a curious twist of logic the FCC has moved to upend the rules yielding that outcome imposing network neutrality regulations on broadband access providers The new mandates purport to prevent Internet gatekeepers by prohibiting networks from favoring certain applications In this comprehensive Broadside Thomas W Hazlett explains the faulty economic logic behind the FCC's regulations The open Internet thriving without such mandates allows consumers investors and entrepreneurs to choose the best platforms and products testing rival business models Networks are actively and efficiently involved in managing traffic and promoting popular applications making the entire ecosystem more valuable This is a spontaneous market process not a planned structure and the commission's restrictions threaten to stifle innovation and economic growth *Network World* , 2003-02-10 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce *Standard & Poor's Stock Reports* , 2011-03 **Network World** , 2001-09-10 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce *Network World* , 1996-11-18 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce Network Neutrality and Internet Regulation United States.
