Promoting Information in the Marketplace for Financial Services Paul Latimer,Philipp Maume,2014-11-14 This book provides a unique comparative and global analysis of the regulation of disclosure in financial securities markets It is written by two authors who represent both the new world Australia and the old world Germany The authors present their research in the global business context with legal and regulatory perspectives including some references from Africa Asia the Middle East and South America After every boom and bust legislators pass new disclosure legislation often in a heated environment fuelled by politics and the media Little regard is paid to existing regulation or the lessons learned from earlier regulation The result is the continuing enactment of redundant and overlapping disclosure laws Since financial markets are often described as markets for information the failure to ensure disclosure is at the heart of financial services regulation This book argues that the solution to the failure of disclosure is a brief easily understood principles based plain English safety net amendment to statute law such as you must keep the financial market fully informed a measure that would support effective mandatory continuous disclosure of information to financial markets This book examines the reasons for disclosure regulation and how the efficient operation of financial markets is dependent on disclosure It examines the adequacy of common law and civil law concerning broker client disclosure and concludes that industry licensing in itself fails to keep the market informed While recognizing the failures of securities commissions to achieve good disclosure in financial markets it confirms the effectiveness of coregulation of disclosure by a commission with the support of the financial markets such as the stock

exchange Coregulation builds on financial market self regulation and is best described in the words of one time SEC Chairman William O Douglas who in the 1930s described it as a shotgun behind the door     Financial Analysis, Planning And Forecasting: Theory And Application (Third Edition) Cheng Few Lee, John C Lee, 2016-08-10 This book is an introduction level text that reviews discusses and integrates both theoretical and practical corporate analysis and planning The field can be divided into five parts 1 Information and Methodology for Financial Analysis 2 Alternative Finance Theories and Cost of Capital 3 Capital Budgeting and Leasing Decisions 4 Corporate Policies and their Interrelationships 5 Financial Planning and Forecasting The theories used and discussed in this book can be grouped into the following classical theoretical areas of corporate finance 1 Pre M and alternative planning and forecasting models are used to show how the interdisciplinary approach can be used to make meaningful financial management decisions In this third edition we have extensively updated and expanded the topics of financial analysis planning and forecasting New chapters were added and some chapters combined to present a holistic view of the subject and much of the data revised and updated     Strategic Financial Management Rajni Sofat, Preeti Hiro, 2011-07-30 Discusses the basics of strategic management as well as financial management and explains how businesses can formulate strategies to pursue their financial objectives and strengthen their financial position It is intended as a text for postgraduate students of management In addition students pursuing professional courses such as chartered accountancy MFC as well as professionals in the corporate sector will find the book useful
