

TEST BANK FINANCIAL ACCOUNTING THEORY

1. Which of the following statements regarding reversing entries is **incorrect**?
 - a. Deferrals are generally entered in statement of financial position accounts, thus making reversing entries unnecessary.
 - b. All accruals should be reversed.
 - c. Adjusting entries for depreciation and bad debts are never reversed.
 - d. Reversing entries change amounts reported in the statement of financial position for the previous period.

2. As part of the objective of financial reporting, "assessing cash flow prospects" is interpreted to mean
 - a. Cash basis accounting is preferred over accrual basis accounting.
 - b. Information about the financial effects of cash receipts and cash payments is generally considered the best indicator of an entity's present and continuing ability to generate favorable cash flows.
 - c. Over the long run, trends in revenue and expenses are generally more meaningful than trends in cash receipts and disbursements.
 - d. All of the choices are correct regarding "assessing cash flow prospects".

3. Financial accounting standard-setting
 - a. Can be described as a social process which reflects political actions of various interested user groups as well as a product of research and logic.
 - b. Is based solely on research and empirical findings.
 - c. Is a legalistic process based on rules promulgated by governmental agencies.
 - d. Is democratic in the sense that a majority of accountants must agree with a standard before it becomes enforceable.

4. Which of the following is **not** a benefit associated with the Conceptual Framework?
 - a. A conceptual framework should increase financial statement users' understanding and confidence in financial reporting.
 - b. Practical problems should be more quickly solvable by reference to an existing conceptual framework.
 - c. A coherent set of accounting standards and rules should result.
 - d. Business entities will need far less assistance from accountants because the financial reporting process will be quite easy to apply.

5. When classifying assets as current and noncurrent
 - a. The amount at which current assets are carried and reported must reflect realizable cash value.
 - b. Prepayments for items such as insurance are included in "other assets" rather than as current assets as they will ultimately be expensed.
 - c. The time period by which current assets are distinguished from noncurrent assets is determined by the seasonal nature of the business.
 - d. Assets are classified as current if they are reasonably expected to be realized in cash or consumed during the normal operating cycle.

6. Entities should separately report all of the following, **except**
 - a. Assets and liabilities with different general liquidity characteristics.
 - b. Assets and liabilities that have been financed with different type of instruments.
 - c. Assets that differ in their expected function in the entity's central operations.
 - d. Liabilities that differ in their amounts, timing and nature.
