## **First Grade August Newsletter:**

*Reaching Out* Diane W. Kyle, Ellen McIntyre, Karen B. Miller, Gayle H. Moore, 2015-05-26 Too often today's student feels alienated from school and learning suffers as a result. Developing a relationship with the family can provide the missing link in the educational chain. *Reaching Out* is an invaluable resource for compassionate educators interested in building strong relationships with their students' families. A dynamic team of teachers and teacher educators have combined their first-hand experience and in-depth research in this essential guidebook. By involving the entire family in the educational experience, teachers can bridge the gap separating home and school and help produce happier, healthier, and smarter kids. Highlights include: Building trust with families, Communicating in positive ways with students' families, Implementing family workshops, Involving families through innovative homework ideas. Based on a five-year study, the information will be particularly helpful for teachers whose classrooms reflect a diverse student population. By incorporating these concepts and techniques, you not only enhance the learning experience, you also help your students to be more compassionate and excited about school.

**The New Math** Christopher James Phillips, 2015 An era of sweeping cultural change in America: the postwar years saw the rise of beatniks and hippies, the birth of feminism, and the release of the first video game. This book examines the rise and fall of the new math as a marker of the period's political and social ferment.

**Beyond the Classroom** Nanci Werner-Burke, 2014-09-19 Go beyond the walls of your classroom to build literacy and achievement. In this insightful book, you'll discover how you can better meet the rigorous goals of the Common Core by opening new lines of communication with colleagues, parents, and students. Each chapter centers around an action project that was designed to help teachers improve literacy by moving beyond the typical class lessons and worksheets. The projects include: A book club for families of kindergarten and first-grade students to help students build foundational literacy skills; A book club designed to engage middle school students with young adult literature using digital forums; Write with your child: evenings to help parents connect with their middle school children; An instructional team's challenge to use a range of mentor texts in their classrooms; And much more. As you read each project, you'll come away with ideas and inspiration that you can apply to your own teaching. By challenging yourself to connect with parents and colleagues on a deeper level, you will be better able to align your work, adjust for your students, and achieve your teaching goals.

**Literacy** David Wray, 2004 This four-volume collection reprints key debates about exactly what it means to be literate and how literacy can best be taught. Rather than centering on the emotional reaction of mass media debates, this

set focuses on research findings into processes and pedagogy The themes covered include Literacy its nature and its teaching Reading processes and teaching Writing processes and teaching and New Literacies the impact of technologies
