university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework

Teaching in America Charles B. Hutchison, 2005-08-26 Scenario One Imagine a teacher walking into a classroom The students stood up to greet the teacher on his or her entrance through the door and remained standing until they were beckoned to sit down The students then sat down with their eyes fixed on the teacher waiting for instructions on what to do next The teacher was in absolute control knew exactly what was going on and what to expect from the students On their part the students knew exactly what to expect from the teacher standing up to greet the teacher on his or her entrance into the classroom was normal In fact it was cultural They had therefore not done anything extraordinary The teacher proceeded to have a very good class period Nothing different was expected this was a normal day Scenario Two Imagine the same teacher with the same expectations as in Scenario One walking into a different classroom The students did not stand up to greet him or her they did not know about such a tradition nor was it a part of their culture In fact some were standing and chatting with friends as he or she entered the classroom
