Geography June Exam Question Paper Memorandum 2014:

States of Fragility 2016 Understanding Violence OECD,2016-11-30 The world is getting more violent and violence is occurring in surprising places Over the past 15 years 3 34 billion people or almost half of the world s population have been affected by violence The number of violent conflicts is decreasing but conflicts are killing more people World Scientific Reference On Asia-Pacific Trade Policies (In 2 Volumes) Kym Anderson,2019-12-19 Protectionism has been placed under the media spotlight with news headlines generated by populist anti globalization movements and Donald Trump s term as US President Such a policy stance is putting at risk unilateral trade reform efforts in the Asia Pacific region and elsewhere This two volume reference work provides a timely update on how far the region has come in opening markets It analyzes the motivations or ostensible objectives of policies adopted in the past the changing extent of the domestic price distortions involved the economic effects of those policies at home and abroad the political economy forces at work that brought about those policies and their subsequent reform their consequences for international trade economic welfare and poverty alleviation and prospects for sustainable improvements in current policies Case studies of major East Asian economies and Australia reveal how government priorities to assist farmers versus manufacturers changed over the past century but especially since the 1980s and how that has affected trade between natural resource poor and resource rich economies This set is highly recommended for those who are interested in the economics and politics of trade policies agricultural economics economic development and food and nutrition security in the Asia Pacific region and beyond *Sand, Snow, and Stardust* Gretchen Heefner,2025-05-05 A vivid tour of US military efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country s status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon *Sand Snow and Stardust* explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America s planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship

between environmental history and military might Sand Snow and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely **Sqa**
