NOVEMBER 2014

**ACCOUNTING
MARKING GUIDELINE
(MEMORANDUM)**

MARKS: 300

GENERAL PRINCIPLES:

- 1 Where calculations are required, award full marks for the final answer. If the answer is incorrect, mark the workings provided. If the working amount is shown as a final answer, award the relevant marks allocated for workings (Income statement), and not the method mark for the answer.
- 2 Method marks are denoted by ££.
 - For calculations and final totals, at least one part of the workings must be correct for the method mark to be earned. For totals – inspect operation and reasonableness of answer before awarding the mark.
 - In cases where answers of previous questions must be used (carried forward answers), check the transfer.
 - Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no sign (+/-) or bracket is provided, assume that the figure is positive.
- 3 For questions requiring explanations and comments (2 marks or more), award part-marks. A good comment will normally mention and explain a point. Beware of different ways to say the same thing. Note that the marking guideline only offers suggested answers – read and try to make sense of what the learner is attempting to convey, and award marks accordingly.
- 4 Where penalties are applied (such as foreign items, misplaced items, omitted details, etc.), the marks for that section cannot be a negative. Penalties will be indicated next to the relevant questions where applicable. *Where foreign items are included in any calculation, full marks cannot be awarded.*
- 5 Markers are advised to work through the question paper and compare with this guideline, before marking. If adjustments are necessary, do so within the framework of the mark allocation.

This memorandum consists of 14 pages.
