4th Grade VIRGINIA SOL 2019 MATH Test Prep Mark Shannon, 2018-09-20 Includes 3 000 videos showing solutions to all problems Book is perfect for kids who are struggling and saying I don't know where to start when they read the problem Updated to reflect changes made in 2017 2018 school year **4th Grade Virginia SOL Test Prep** Mark

Shannon, 2018-01-22 This test prep is good for kids who are on the fence and having trouble passing or need to increase their margin These kids will often say I DON'T KNOW WHERE TO START when explaining their confusion This book address that problem with three approaches 1 In contrast with the other study guides that use random questions in their practice exams this book collated the questions into chapters based on the logic to solve them The 4th The grade book is divided into seven chapters They are Logic Arithmetic Geometry Fractions Reading Graphs and tables Measurements including a ruler and basic statistics This book teaches basics then goes into practice exams with word problems Once the student is proficient with the questions organized into chapters then they are ready for random questions 2 This study guide has thousands of practice problems I have placed over 3100 videos on YouTube showing you how to work the problems 3 I reviewed several years of past exams and placed enfacs on the easiest and most common questions Mastering these questions should yield a 75% to 80% If a student is already achieving this percentage the other guides or web site with random questions and covering all material might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest questions are using a ruler to measure The web designers don't know the size of your computer screen and can't determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best Regards Mark Shannon [Circular](#) ,1960 [Resources in Education](#) ,2000-04 [Materials for Solar Energy Conversion](#) R.
