Reich,2012-04-10 When unions undertake labor organizing campaigns they often do so from strong moral positions contrasting workers rights to decent pay or better working conditions with the more venal financial motives of management But how does labor confront management when management itself has moral legitimacy In *With God on Our Side* Adam D Reich tells the story of a five year campaign to unionize Santa Rosa Memorial Hospital a Catholic hospital in California Based

on his own work as a volunteer organizer with the Service Employees International Union SEIU Reich explores how both union leaders and hospital leaders sought to show they were upholding the Catholic mission of the hospital against a market represented by the other Ultimately workers and union leaders were able to reinterpret Catholic values in ways that supported their efforts to organize More generally Reich argues that unions must weave together economic and cultural power in order to ensure their continued relevancy in the postindustrial world In addition to advocating for workers economic interests unions must engage with workers emotional investments in their work must contend with the kind of moral authority that Santa Rosa Hospital leaders exerted to dissuade workers from organizing and must connect labor s project to broader conceptions of the public good [ERDA Energy Research Abstracts](#) ,1977 **Home economics** Sacha Hepburn,2022-08-16 Domestic service has long been one of the largest forms of urban employment across southern Africa Home economics provides the first comprehensive history of this essential sector in the decades following independence and the end of apartheid Focusing on Lusaka and drawing wider comparisons the book traces how Black workers and employers adapted existing models of domestic service as part of broader responses to changing gendered employment patterns economic decline and endemic poverty It reveals how kin based domestic service gradually displaced wage labour and how women and girl workers came to dominate kin based and waged domestic service with profound consequences for labour regulation and worker organising Theoretically innovative and empirically rich the book provides essential insights into debates about gender work and urban economies that are critical to understanding southern Africa s post colonial and post apartheid history **Shared Prosperity in a Fractured World** Dani Rodrik,2025-11-04 New practical approaches to confronting today s most daunting global issues Fighting climate change saving democracy and eradicating poverty are urgent global challenges yet the world s leaders continue to pursue outdated policies that focus on one while worsening the tradeoffs between each of them Shared Prosperity in a Fractured World shows how the nations of the world can achieve all three objectives Dani Rodrik provides a bold new vision of globalization one in which we accelerate the green transition to achieve a sustainable planet shore up the middle class to restore democracy s foundations and hasten economic revitalization in the developing world to put an end to poverty The rising tide of authoritarianism has demonstrated our inability to alleviate economic anxieties Economic nationalism has raised the specter of increased protectionism and deteriorating prospects for economic growth And automation and other new technologies have undercut the advantages of low cost unskilled labor in manufacturing and export oriented industrialization Rodrik reveals how we can restore prosperity through new forms of collaborative public private action to promote renewables and green industries middle class jobs and enhanced productivity in labor absorbing services even in the absence of global cooperation He explains why this new kind of globalization must also recognize the legitimate desire of governments to pursue their economic social and security interests autonomously Turning conventional economic wisdom on its head Shared Prosperity in a Fractured World builds on practices
