5 Last year, Mayor Stephens established a special law-enforcement task force with the avowed mission of eradicating corruption in city government. - Ⓐ Complaints of official corruption in city government have decreased since the anticorruption task force began operating.
- Ⓑ Former mayor Bixby did not publicly oppose Mayor Stephens' establishment of the anticorruption task force.
- Ⓒ Almost all of the officials who have served in city government for any length of time are appointees of Mayor Bixby.

adjacent established fields e.g. L1 acquisition, adult L2 acquisition, offering in addition to documenting and describing HS performance, important insights for linguistic theory and challenges related to home minority language maintenance, contact policy and more. Sherratt, David M. Wilkinson, 2009-02-19

Why do we age? Why cooperate? Why do so many species engage in sex? Why do the tropics have so many species? When did humans start to affect world climate? This book provides an introduction to a range of fundamental questions that have taxed evolutionary biologists and ecologists for decades. Some of the phenomena discussed are on first reflection simply puzzling to understand from an evolutionary perspective, whilst others have direct implications for the future of the planet. All of the questions posed have at least a partial solution, all have seen exciting breakthroughs in recent years, yet many of the explanations continue to be hotly debated. *Big Questions in Ecology and Evolution* is a curiosity driven book written in an accessible way so as to appeal to a broad audience. It is very deliberately not a formal text book but something designed to transmit the excitement and breadth of the field by discussing a number of major questions in ecology and evolution and how they have been answered. This is a book aimed at informing and inspiring anybody with an interest in ecology and evolution. It reveals to the reader the immense scope of the field, its fundamental importance and the exciting breakthroughs that have been made in recent years.

**Special Report to the U.S. Congress on Alcohol and Health from the Secretary of Health and Human Services**, Formal approaches to complexity in heritage language grammars Maria Polinsky, Michael T. Putnam, 2024-07-05

This collective volume breaks new ground in studies of linguistic complexity by addressing this phenomenon in heritage languages. It dismisses with the conception that heritage languages are less complex than their baseline or homeland counterparts and shows complexity trade offs at various levels of linguistic representation. The authors consider defining properties of complexity as a phenomenon, diagnostics of complexity and the ways complexity is modeled, measured or operationalized in language sciences. The chapters showcase several bilingual dyads and offer new empirical data on heritage language production and use. Essentials of Polygraph and Polygraph Testing Nathan J. Gordon, 2016-11-17

Throughout history there has been an intrinsic need for humans to detect deception in other humans. Developed in 1923, the polygraph machine was a tool designed to do just this. To date there have been many improvements made to the basic polygraph instrument. This book outlines the instrumentation as well as the latest in questioning techniques and methods available to the professional interviewer to determine truth from deception. The book covers psychology and physiology, a history of polygraph with the advances of leading figures, question formulation, data analysis, legal implications and legal cases and the author's developed technique, Integrated Zone Comparison Technique (IZCT).
