Ancient Israel in Egypt Daniel Tompsett, 2023-02-07 This book looks back over thousands of years to explore the period in Egyptian history when the Bible identifies that Ancient Israel was resident in Egypt It asks and answers one very simple question What new things can we learn about this period of history if we treat the Bible as a valid historical document Whereas this topic is often approached from either the perspective of the Bible or Egyptology this work genuinely attempts to occupy the ground between the two It uses Scripture like a torch carried into the deepest recesses of the established historical facts and theories concerning the late Middle Kingdom period the Second Intermediate period and the early New Kingdom period in Egyptian history Along the way it considers some of the latest discoveries innovations and theories from the world of Egyptology and unearths a trove of tangible points of connection As such the narrative forms a two way perspective where the biblical account illuminates stubbornly opaque moments in Egyptian history and chronology and where the meticulous work of Egyptologists provides appropriate additional background to the Bible The result is a sharper perspective of an ancient account that has a surprisingly current application for us all **Leaving Silence** Susannah

Failed God John A. Rush,2019-04-16 On a 2001 trip to the cathedrals of Europe anthropologist John Rush and his wife entered St Mark s Basilica in Venice and encountered a mosaic depicting Jesus surrounded by mushrooms with an Amanita muscaria cap in his hand Examining the space with new eyes they discovered images of mushrooms and mind altering plants all over the Basilica Intrigued Dr Rush spent seven years researching and reflecting on the profound effects hallucinogens had on the founding of all three major Western religions He concluded that Judaism Christianity and Islam are political constructions evolving out of the use of not only Amanita muscaria but a plethora of mind altering substances

Failed God Fractured Myth in a Fragile World re examines the scriptural stories of Judaism Christianity and Islam as told in the Bible and Qur an and reveals them as concocted mythical charters stemming from drug induced romps with the super natural Rush shows how mind altering substances played an instrumental role in the birth and development of Western religions and explains how they contributed to reports of prophetic experiences including angry and disturbing messages from the divine With chapters on Judaism Christianity and Islam Rush fully addresses the effects of mind altering substances on each tradition convincingly discrediting the idea that they stem from actual human interaction with the divine He also shows how an intoxicated and over zealous Apostle Paul corrupted Jesus s simple message of human decency forming an oppressive religious system based on fear In a thought provoking conclusion Rush asks how we can continue to attribute authority to traditions that were so clearly irrationally founded and incompatible with today s world

The Gods of Olympus Barbara Graziosi,2014-03-11 An elegant and entertaining account of the transformations of the Greek gods across the ages from antiquity to the Renaissance and the present day The gods of Olympus are the most colorful characters of Greek civilization even in antiquity they were said to be cruel oversexed mad or just plain silly Yet for all their foibles and flaws they proved to be tough survivors far outlasting classical Greece itself In Egypt the Olympian gods claimed to have given birth to pharaohs in Rome they led respectable citizens into orgiastic rituals of drink and sex Under Christianity and Islam they survived as demons allegories and planets and in the Renaissance they triumphantly emerged as ambassadors of a new secular belief in humanity Their geographic range too has been little short of astounding in their exile the gods and goddesses of Olympus have traveled east to the walls of cave temples in China and west to colonize the Americas They snuck into Italian cathedrals haunted Nietzsche and visited Borges in his restless dreams In a lively original history Barbara Graziosi offers the first account to trace the wanderings of these protean deities through the millennia Drawing on a wide range of literary and archaeological sources *The Gods of Olympus* opens a new window on the ancient world religion mythology and its lasting influence

Assimilation Versus Separation Aaron Wildavsky,2017-09-08 How to behave in the diaspora has been a central problem for Jews over the ages They have debated whether to assimilate by

adopting local customs or whether to remain a God centered people loyal to their temporal rulers but maintaining the peculiar customs that separated them from their host nations The question not only of survival but of the basis for survival is also a central problem in the Joseph stories of the Book of Genesis The work shows its readers the grand alternatives of Judaism instilled in two larger than life figures so its readers can reassess for themselves the road Judaism did not take and understand why Joseph though admirable in many respects is left out of the rest of the Bible The question is answered through the stories about how Joseph the son of Jacob saved his people family from famine by becoming a high ranking administrator to Pharaoh By analyzing his behavior to the people over whom he exercises power Joseph lords it over his brothers grieves his father takes lands from Egyptian farmers and engages in forced deportation Wildavsky explains why Joseph the assimilator is replaced in the Book of Exodus by Moses the lawgiver The book ends by demonstrating that Joseph and Moses are and are undoubtedly meant to be exact opposites As in his earlier book on The Nursing Father Moses as a Political Leader Wildavsky combines analysis of political and administrative leadership with both traditional and modern study of texts thematic linkages via plot grammar dreams poetry and religious doctrine Thus the chapter on Joseph the Administrator is preceded by a chapter on Joseph as The Dream Lord and followed by an analysis and explanation of why Jacob s obscure blessings to his sons are more like curses Always the emphasis is on the reciprocal influence of religion and politics on rival answers to questions about how Hebrews should relate to each other and to outsiders New in paperback the book will be of interest to biblical scholars and readers as well as those concerned with the interaction of religion and political life

Pharaohs Dr Phyllis G Jestice,2024-01-20 Carefully researched superbly entertaining and illustrated throughout with more than 180 photographs and artworks Pharaohs is an accessible history of the kings and queens who ruled Ancient Egypt for more than 4 000 years Religion, Power, and Illusion Patrick J Hurley,2022-12-07 According to anthropologists religion arose in the Neolithic period a time that began 12 thousand years ago when people abandoned the hunter gatherer lifestyle and started settling down in communities By the time of the ancient Egyptians religion had reached a significant level of development The spirits of the seeds and the weather had evolved into gods In the end the gods numbered more than a thousand every god required a temple and every temple needed a priest or several of them Following the death of Jesus for the Christian god to reach its final form took an additional three hundred years It was accomplished through the work of dozens of bishops who wrestled with the problem of how a god consisting of three persons could really be one entity Religious orthodoxy as we know it today is the result of the countless solutions proposed by priests not the result of divinely inspired texts or teachings with various bishops condemning some proposals as heretical and blessing others as conventional But how were orthodoxy and heresy distinguished Any position that increased the power of the bishops was by definition orthodox and any position that undermined it was heretical Thus the Christian god that we have today is a construct assembled over many years and for two thousand years it has served to augment and solidify the power of the bishops who created it and who sustain it Religion Power Illusion concludes that priestly power is so firmly rooted in the human condition that religion is not likely to disappear any time soon It also explores the defective logic used by religious promoters and what is necessary for experiences to be non illusory
